Mediterranea Teal

Mediterranean is a versatile coastal blue that feels both modern and timeless. Inspired by sunlit seas and open skies, it balances calm sophistication with refreshing vibrancy.

Mediterranea Teal

Rose Violet

Rose Violet is a rich, versatile hue that blends luxury with vibrancy. It brings a sophisticated pop of color to fashion, design, and interiors without overwhelming.

Rose Violet

Skyway

Skyway is a fresh, adaptable shade of blue that blends seamlessly across fashion and design, offering calm sophistication with wide styling potential.

Skyway

Vibrant Yellow

Vibrant Yellow is a bold, refreshing accent that blends sunny warmth with cool minty tones. It adds zest to fashion and design, pairing easily with neutrals or playful complements.

Vibrant Yellow

Cabbage

Cabbage is a fresh, sustainable-inspired green that reflects calm, balance, and harmony, making it a versatile choice for modern design and fashion.

Cabbage

Mediterranea Teal

19-4517 TCG

Mediterranean is a versatile coastal blue that feels both modern and timeless. Inspired by sunlit seas and open skies, it balances calm sophistication with refreshing vibrancy. This shade works across fashion, interiors, and design, bringing a sense of effortless elegance while also infusing spaces and collections with energy and vitality. Its adaptability makes it equally suited for serene minimalism or bold, contemporary statements.

Rose Violet

17-2624 TCG

Rose Violet is a rich, versatile hue that blends luxury with vibrancy. It brings a sophisticated pop of color to fashion, design, and interiors without overwhelming.

Skyway

14-4112 TCG

Skyway is a fresh, adaptable shade of blue that blends seamlessly across fashion and design, offering calm sophistication with wide styling potential.

Vibrant Yellow

13-0858 TPG

Vibrant Yellow is a bold, refreshing accent that blends sunny warmth with cool minty tones. It adds zest to fashion and design, pairing easily with neutrals or playful complements.

Cabbage

13-5714 TCG

Cabbage is a fresh, sustainable-inspired green that reflects calm, balance, and harmony, making it a versatile choice for modern design and fashion.

MUCK IT UP!

Hybrid Program Offers Hands-on Learning

Get ready to get your hands dirty! A new hybrid program at Rio Salado College lets students study online and practice what they've learned – by growing it!

Rio's new **Sustainable Food Systems** program is changing the way students learn through hybrid classes. Students get the best of both worlds – the convenience and flexibility of online classes and the practicality of hands-on learning.

"This is a new hybrid class," said instructor Peter Conden, who teaches Gardening Practices and Techniques. "The students learn the theory online, and then they work in the 4,400 square-foot community garden to fulfill the lab section of the class."

The new community garden is located at Rio's headquarters, 2323 W. 14th St., in Tempe.

Recently, the first lab section was held at the garden, and students and instructors gathered to ready the garden.

"Today we prepared the garden for plants and put some of the theories that I studied to practice," said student Cody Boers. "It was a surprisingly fun class."

According to Conden, the theories the students practice in the garden will change throughout the year as the weather changes.

"The Southwest is very different from other parts of the country," said Conden. "Students study how the climate influences what is grown in a garden, and then they have to develop a plan for that time of the year."

The climate wasn't the only thing affecting the garden. The class also secured the area to keep out local wildlife.

As the garden takes shape, it also will impact what is served in the new Rio Café.

Items grown in the garden will be used in Rio's culinary classes, which are part of the Sustainable Foods Program. These classes will be preparing the meals served in the café.

"The entire program is one big cohesive laboratory," said Conden. "Students in the café and garden will work together toward a goal of zero waste."

WHAT'S New @ Rio?

TRANSFERASU

Several new transfer opportunities are available to Rio students through the Maricopa-ASU Pathways Program (MAPPS):

- Geography (Meteorology/Climatology), BS; Geography or Geography (Urban Studies), BS; Geography, BA; Anthropology, BA; Philosophy, BA; Religious Studies, BA; Economics College of Liberal Arts and Sciences, BA; Women and Gender Studies, BA; W.P. Carey MAPPS.

COMING SOON!

Get ready for tasty treats when the new Café @ Rio opens its doors in late spring. And keeping with Rio's green efforts, the café will run by students in Rio's Sustainable Foods Program, and will feature items grown in Rio's Tempe community garden.

XP3

BUILT FOR LIFE

Built for those who work in extreme, hazardous, and/or isolated environments, the Sonim XP3 is the latest in Sonim's lineup of ultra rugged mobile phones. Designed for professionals who are exposed to the most hostile environments every day and backed by Sonim's industry-leading 3-year Comprehensive Warranty, the Sonim XP3 provides the level of extreme reliability and productivity our customers demand.

DIRECTOR/PRODUCER
TINARANGEL

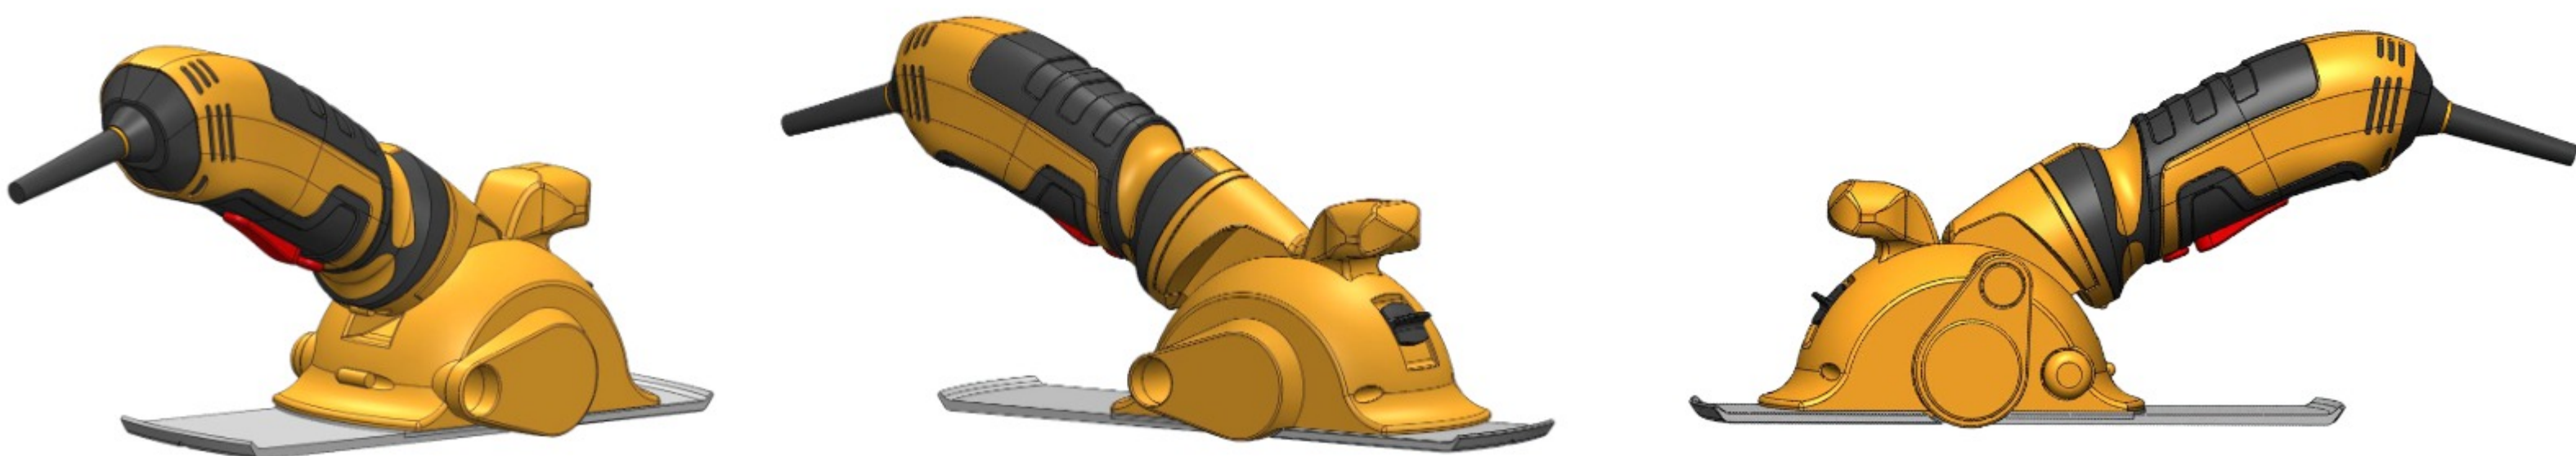

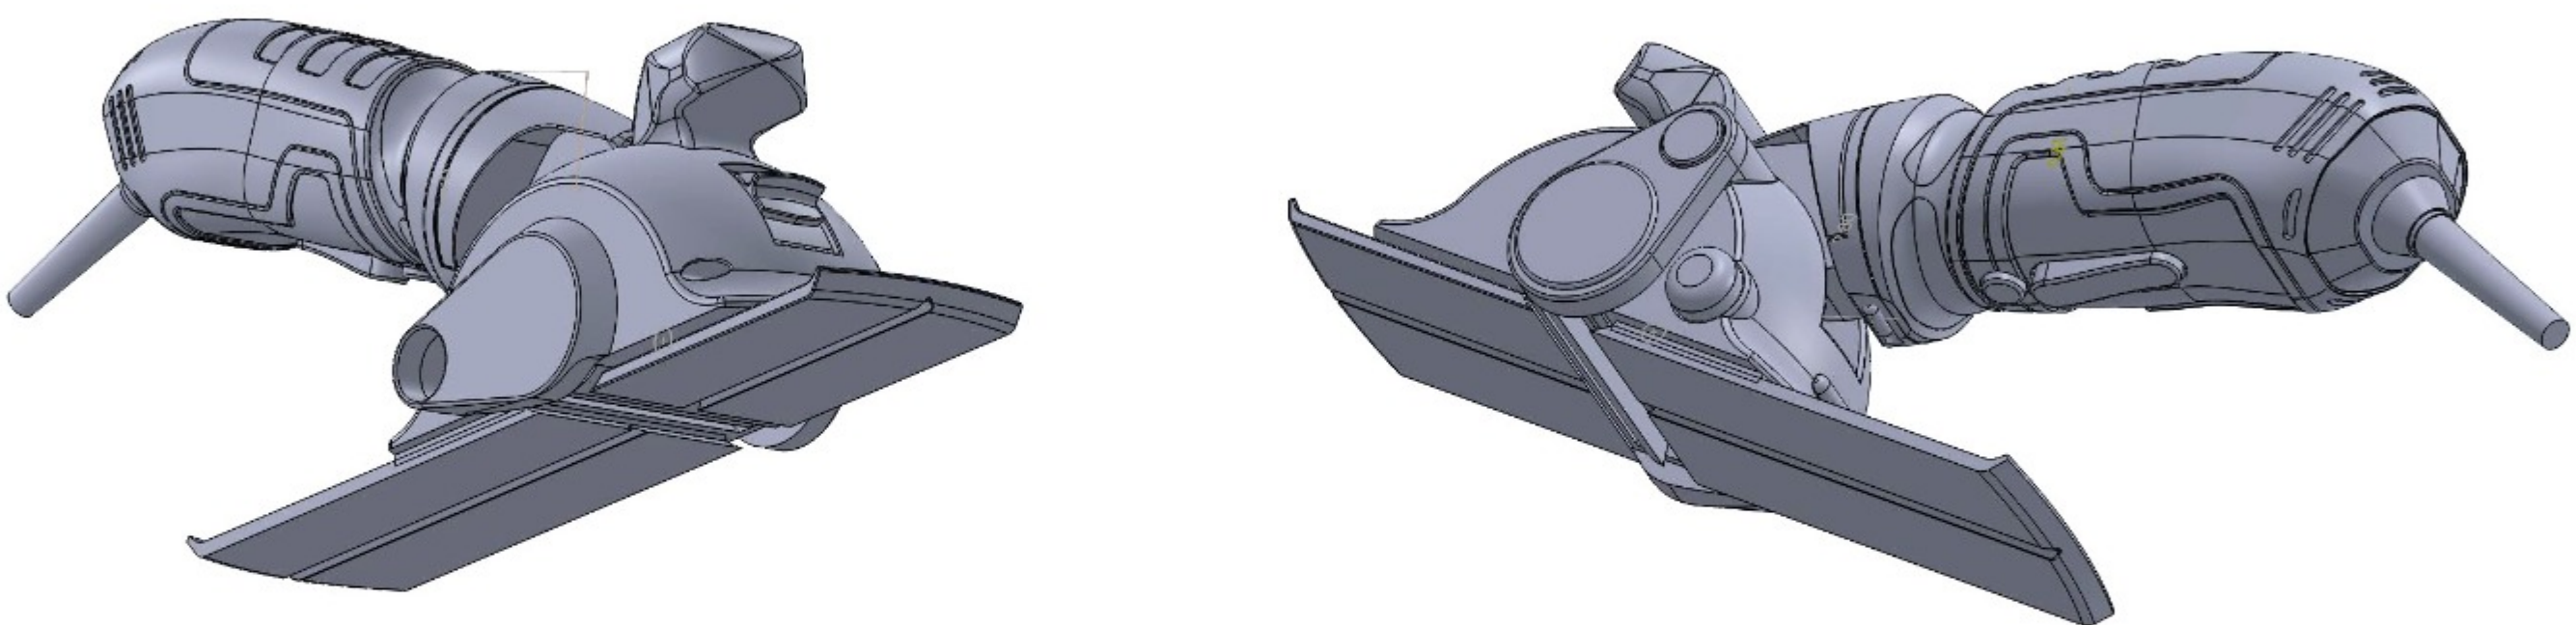

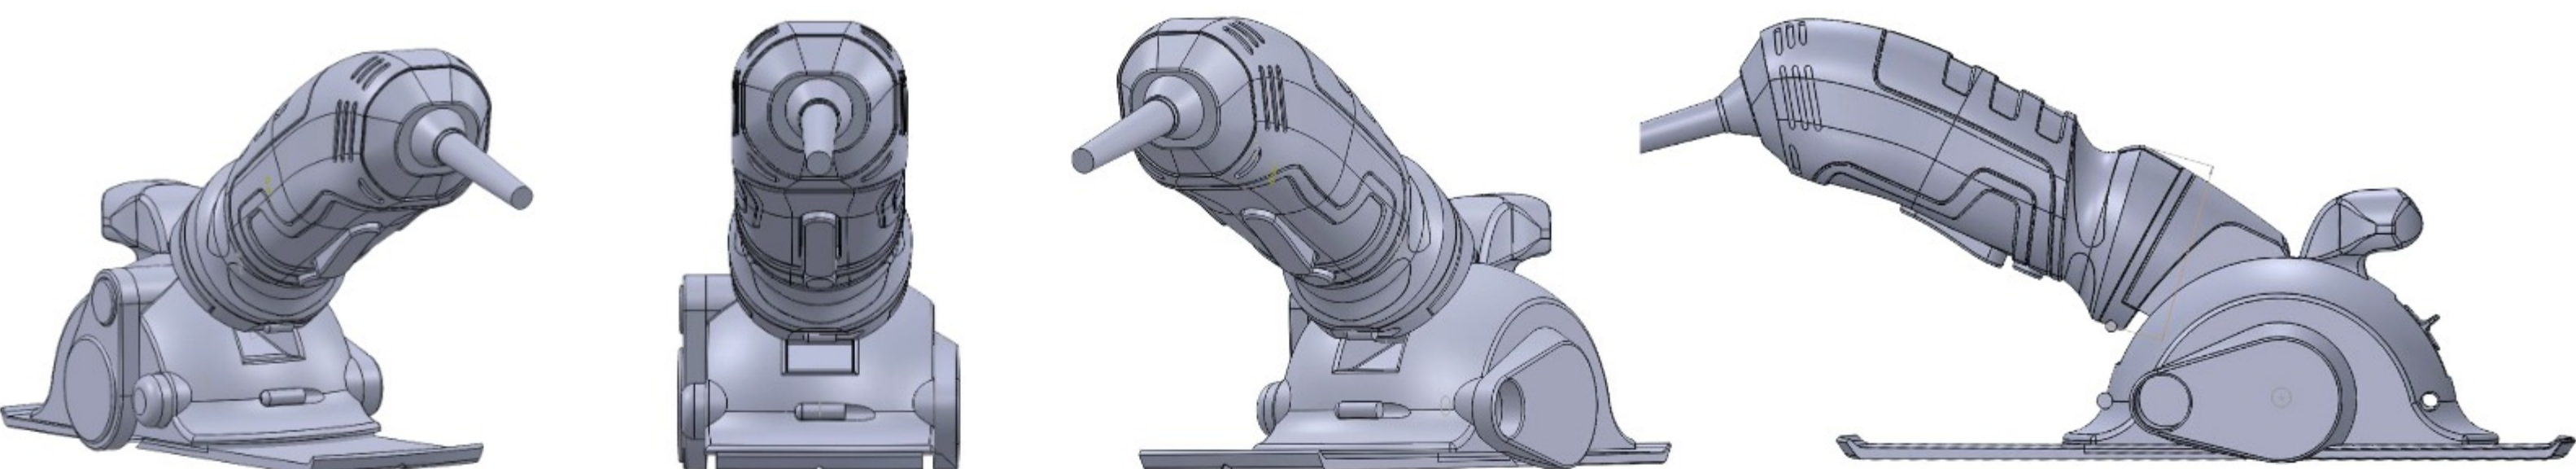

- + Study use cases & form-function relationships
- + Explore concepts through sketching
- + Build study models & 3D models for testing

P.WORK
PRO • WORK | TOOLS & EQUIPMENT

PROJECT CODE: P1000	DATE: 2019-05-26
SERIES: P1000	
TITLE: P-WRK PRO • WORK TOOLS & EQUIPMENT	
MODEL: ELECTRIC PLANER	A0
DESIGNER: P-WRK	MANUFACTURER: P-WRK

- + Explore problems with bulk, accessibility, & misuse
- + Identify extinguisher types & use case scenarios
- + Study form & function through study models & 3D prototypes

Features includes:

1. Single hand operation
2. Shift canister angle for centered weight
3. Durable & lightweight handle with secure grip
4. Easy connections of the canister and handle body
5. Slip resistant rubberized grip

01 3D RENDERING

- General household use
- Outdoor - Camping
- Commuters & on a road trip (cars and mobile homes)
- Small business and studios

- **WATER:** used for Class A fires
- **FOAM:** used for Classes A & B fires
- **DRY POWER:** used for Classes A, B & C fires
- **CO₂:** used for Class B & electrical fires

Class A: SOLIDS such as paper, wood, plastic etc
Class B: LAMMABLE LIQUIDS such as petrol, oil
Class C: FLAMMABLE GASES such as propane, butane
Class D: METALS such as aluminium, magnesium etc
Class E: Fires involving ELECTRICAL APPARATUS
Class F: Cooking OIL & FAT etc

STUDY MODELS

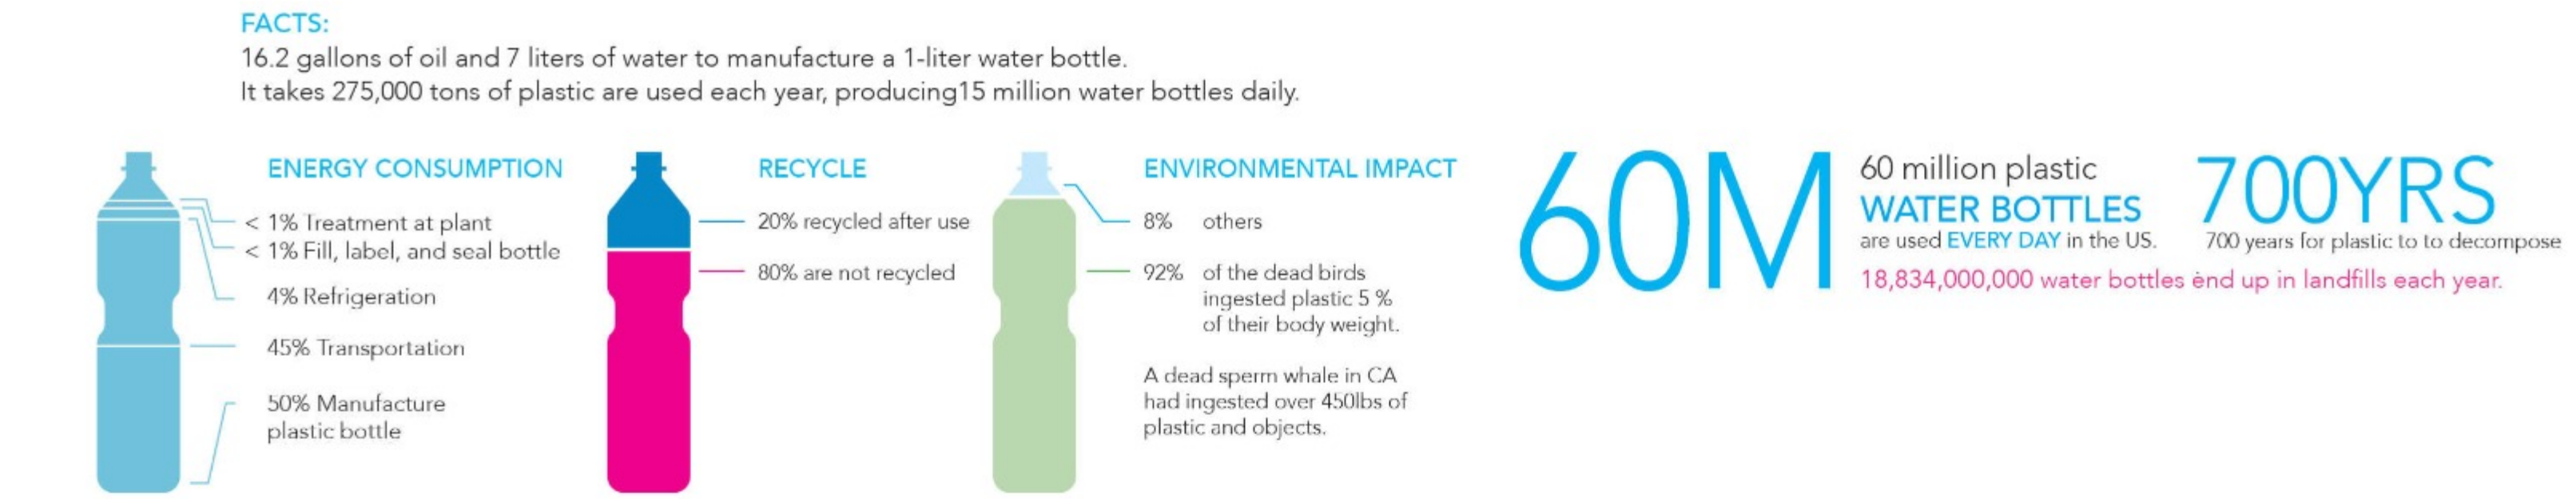

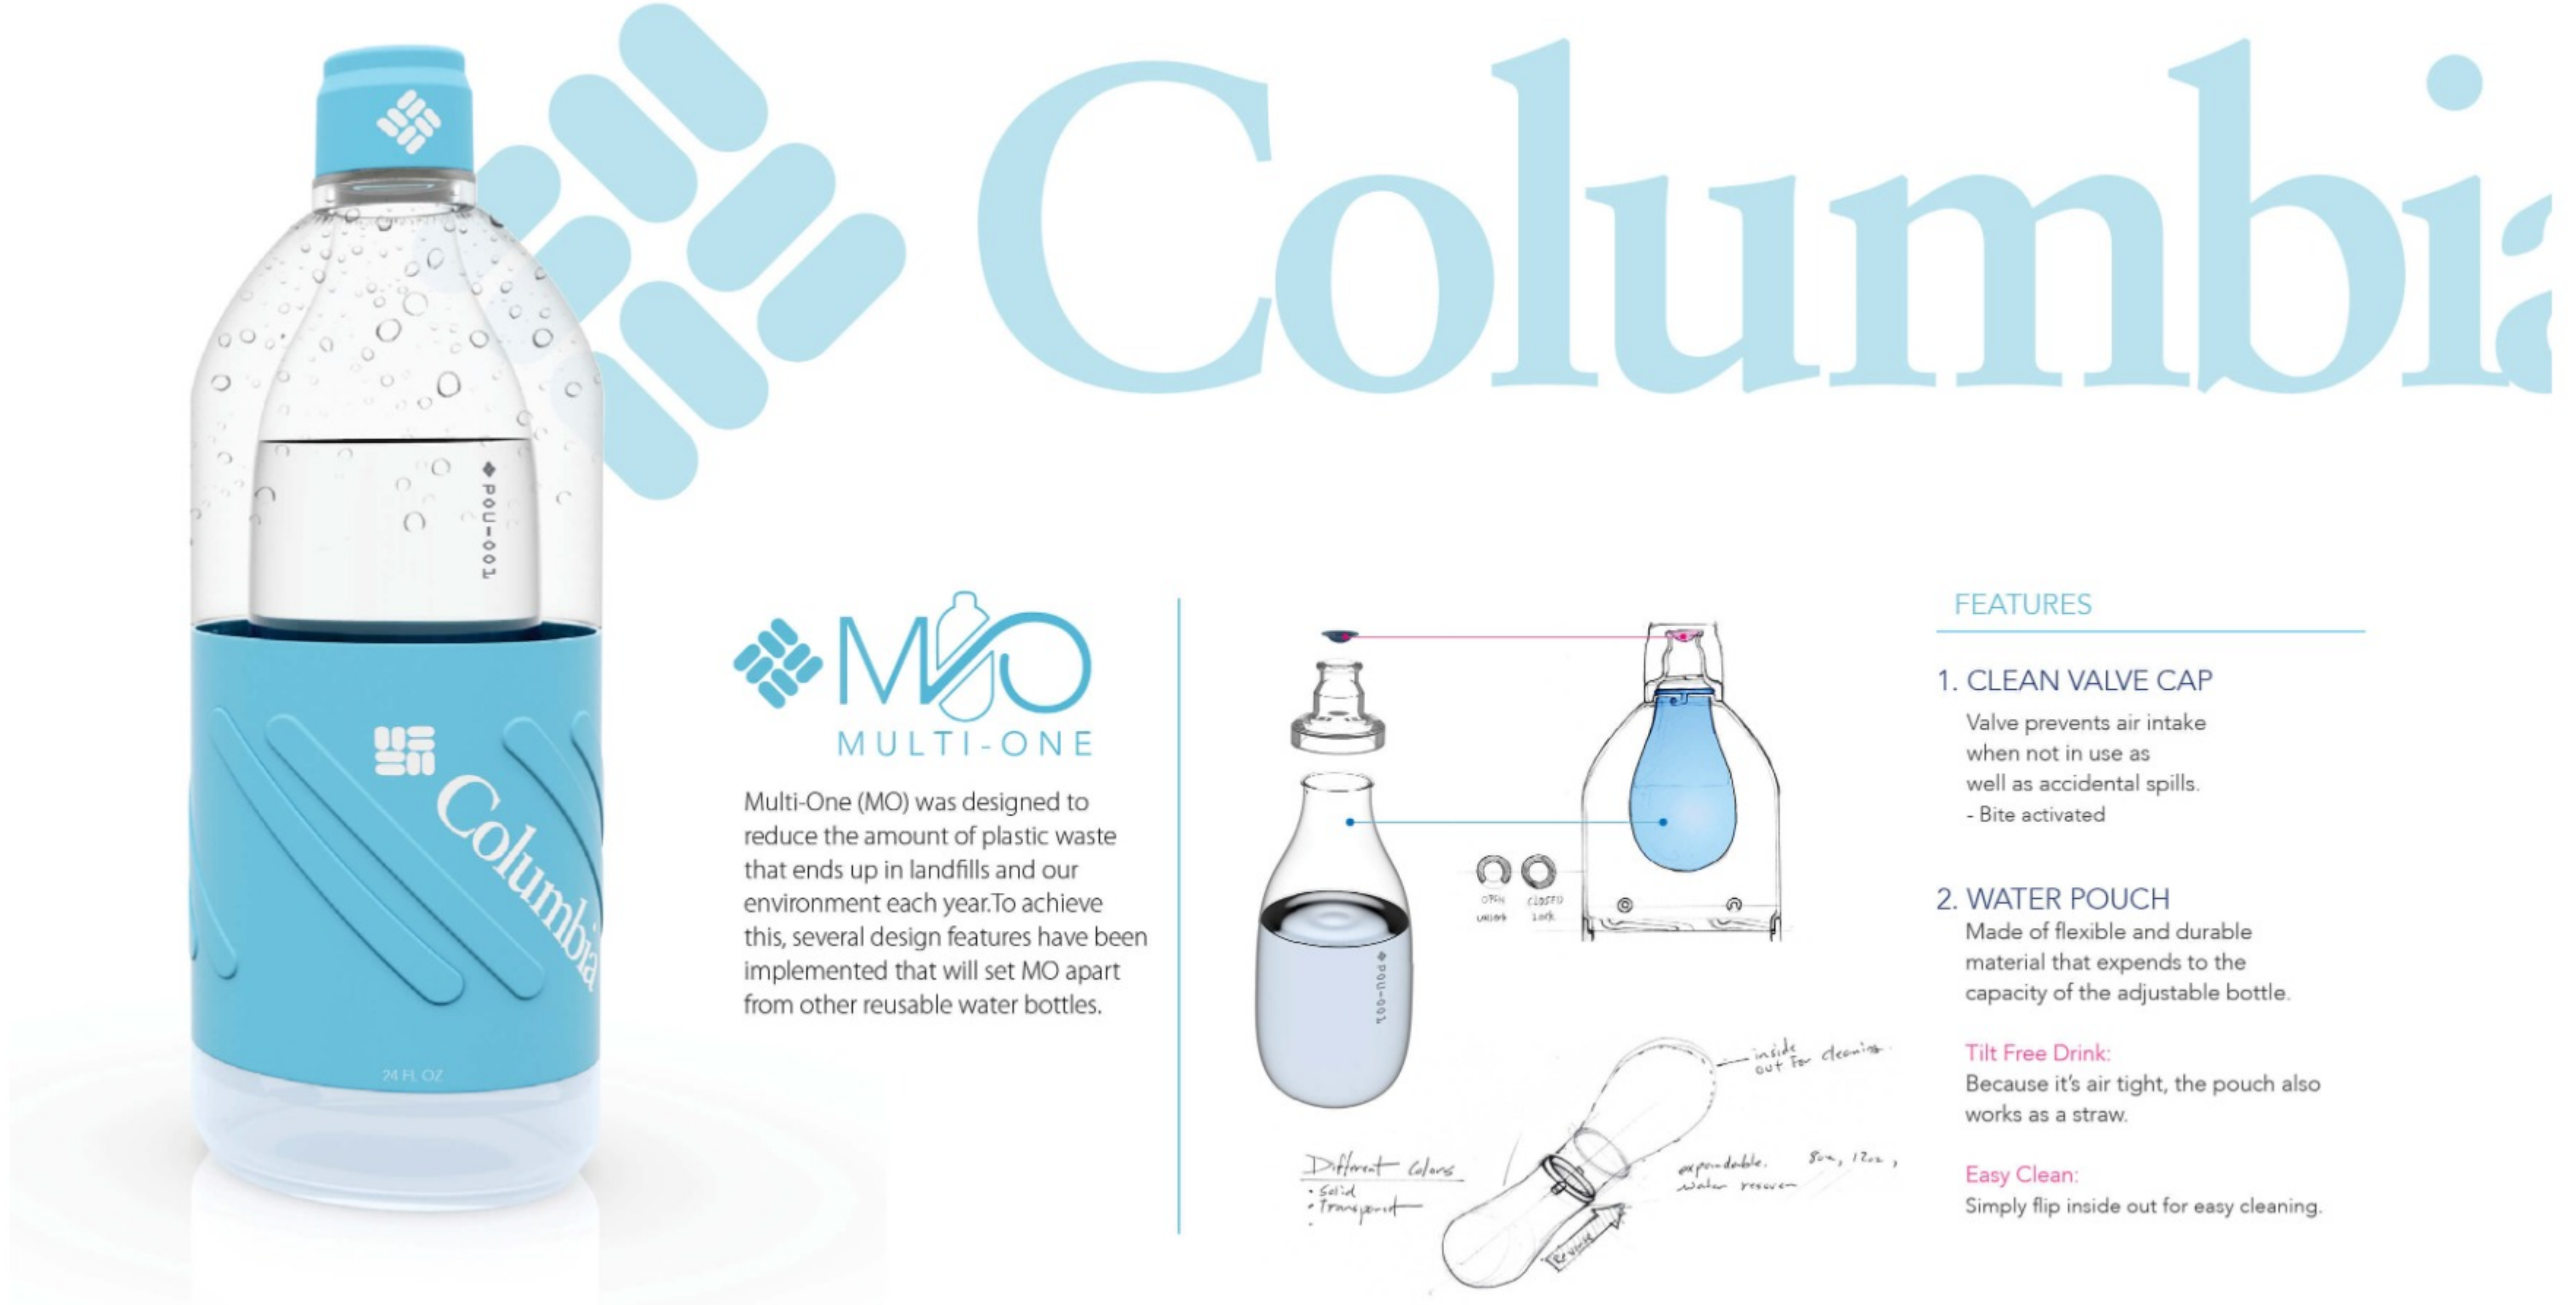

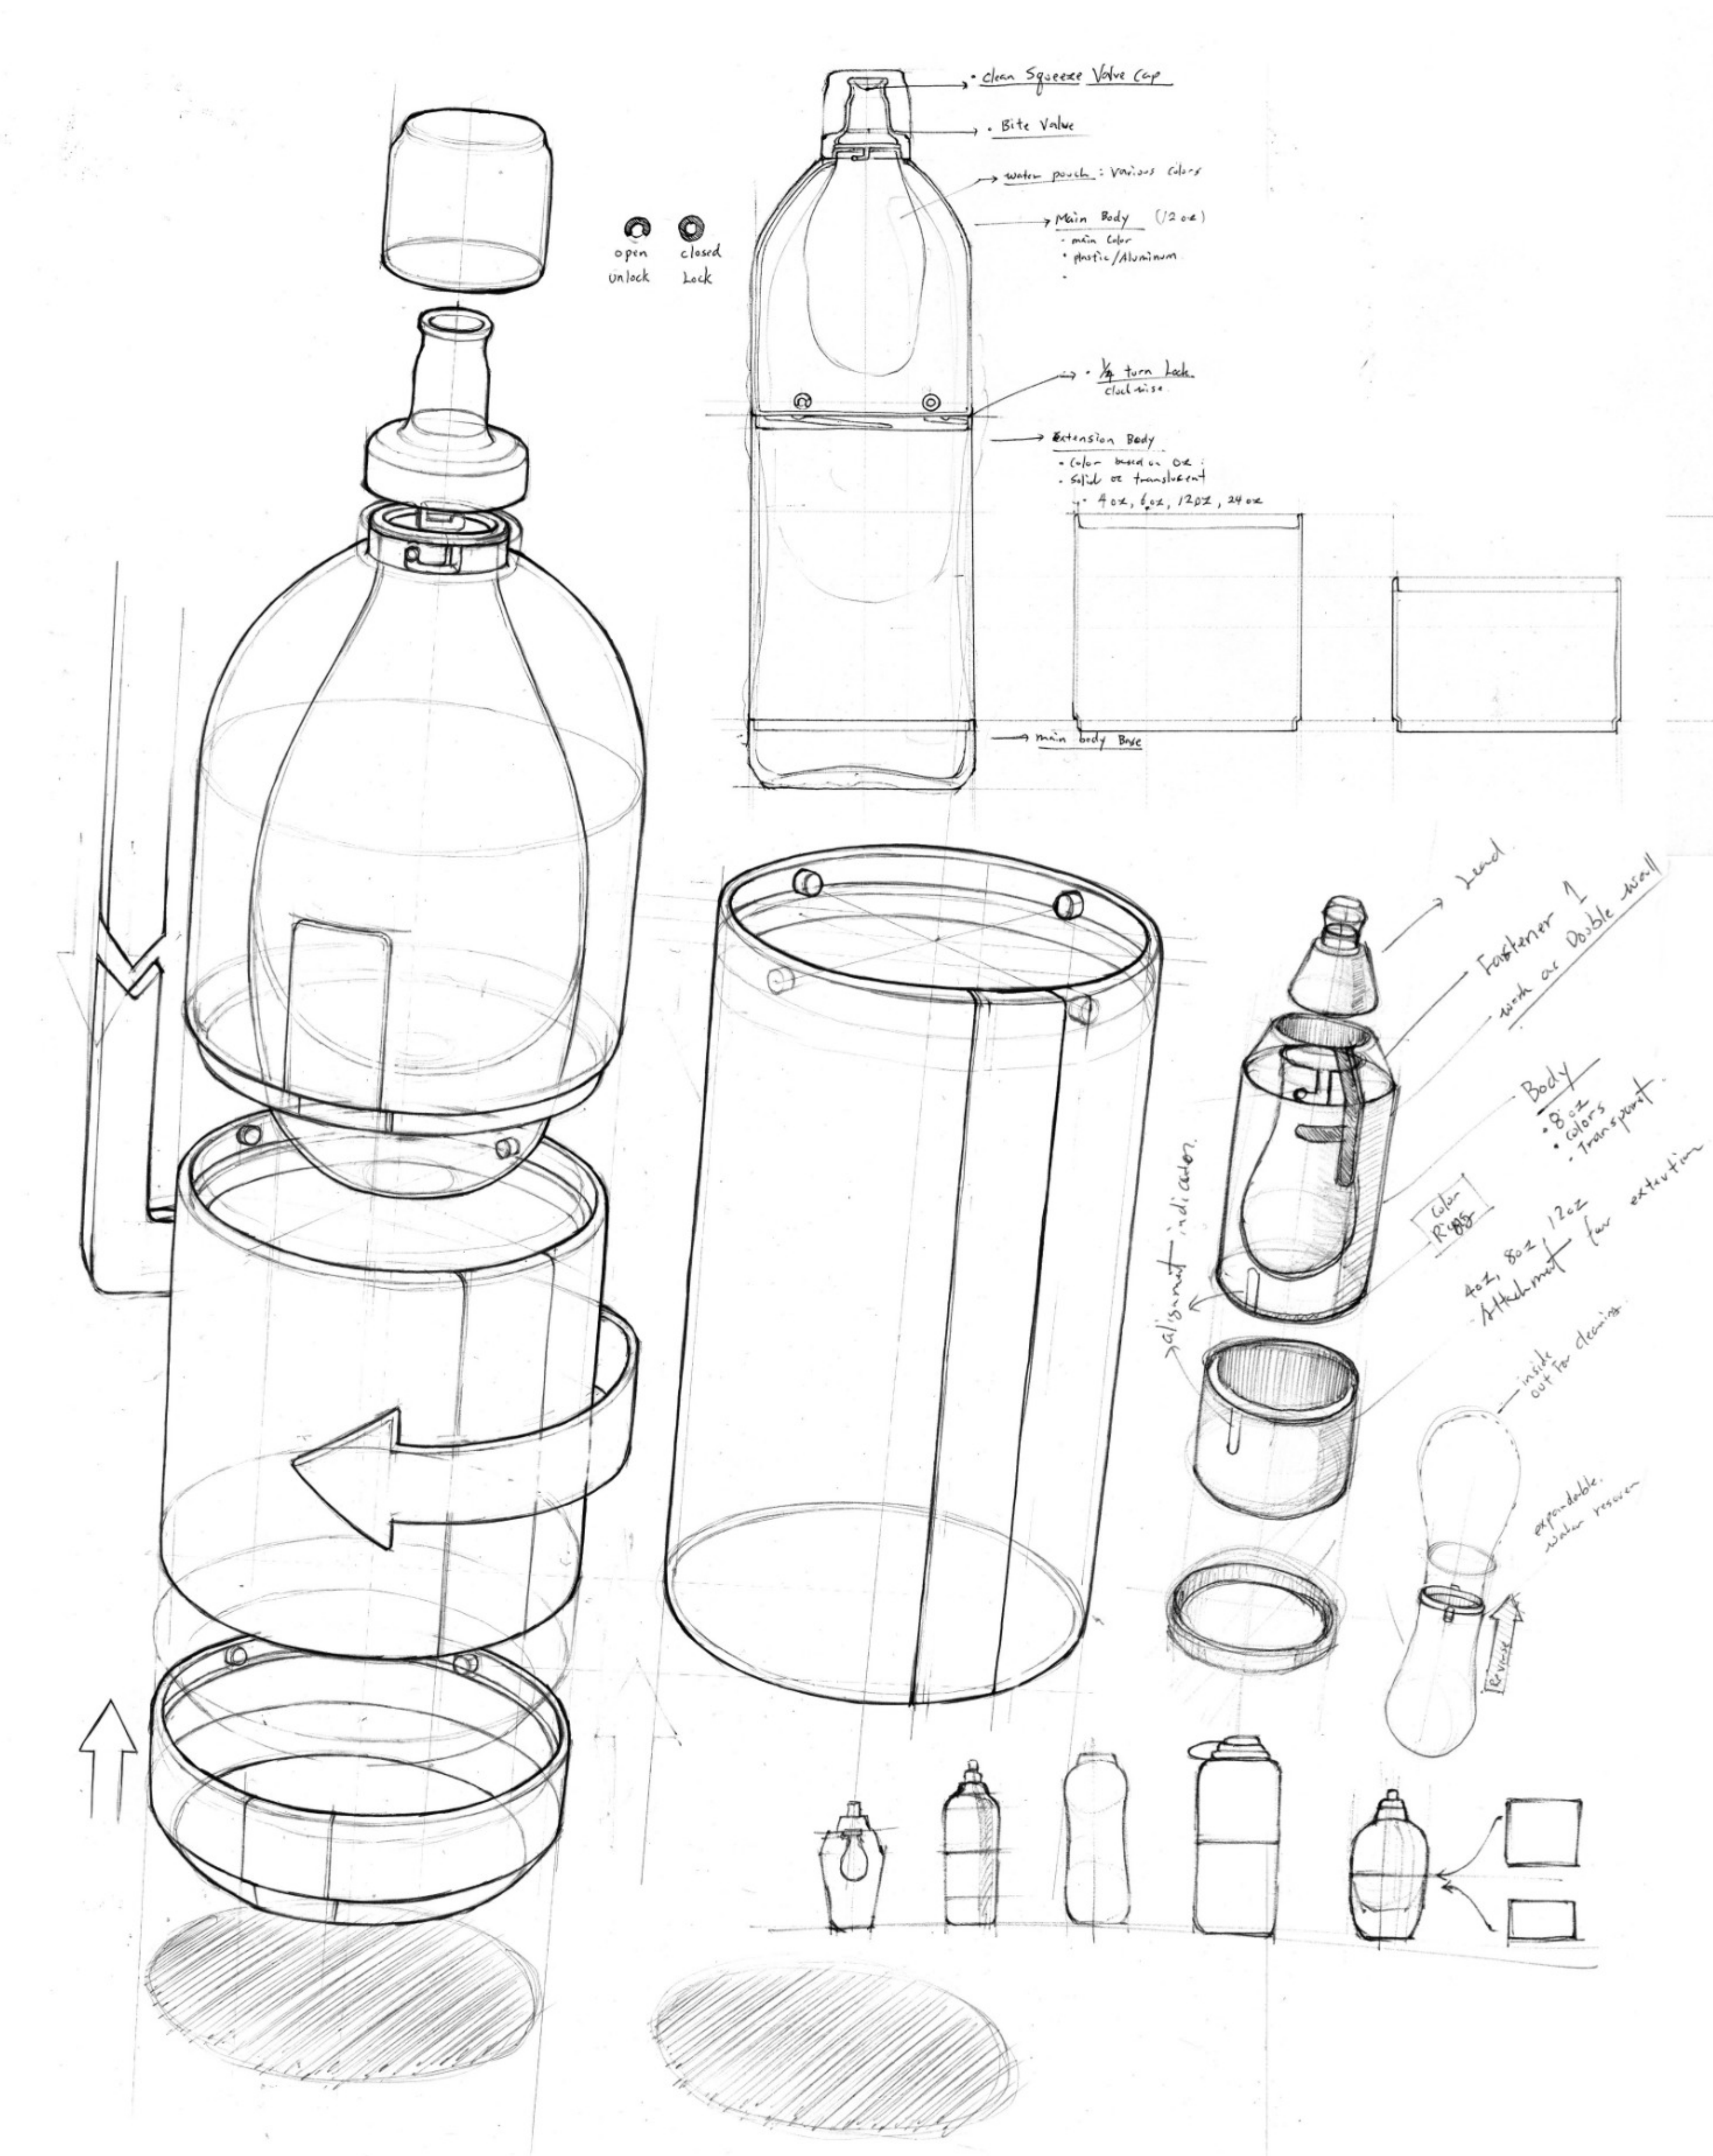

A few dozens of ideation sketches were drawn to study forms and its features and functionality

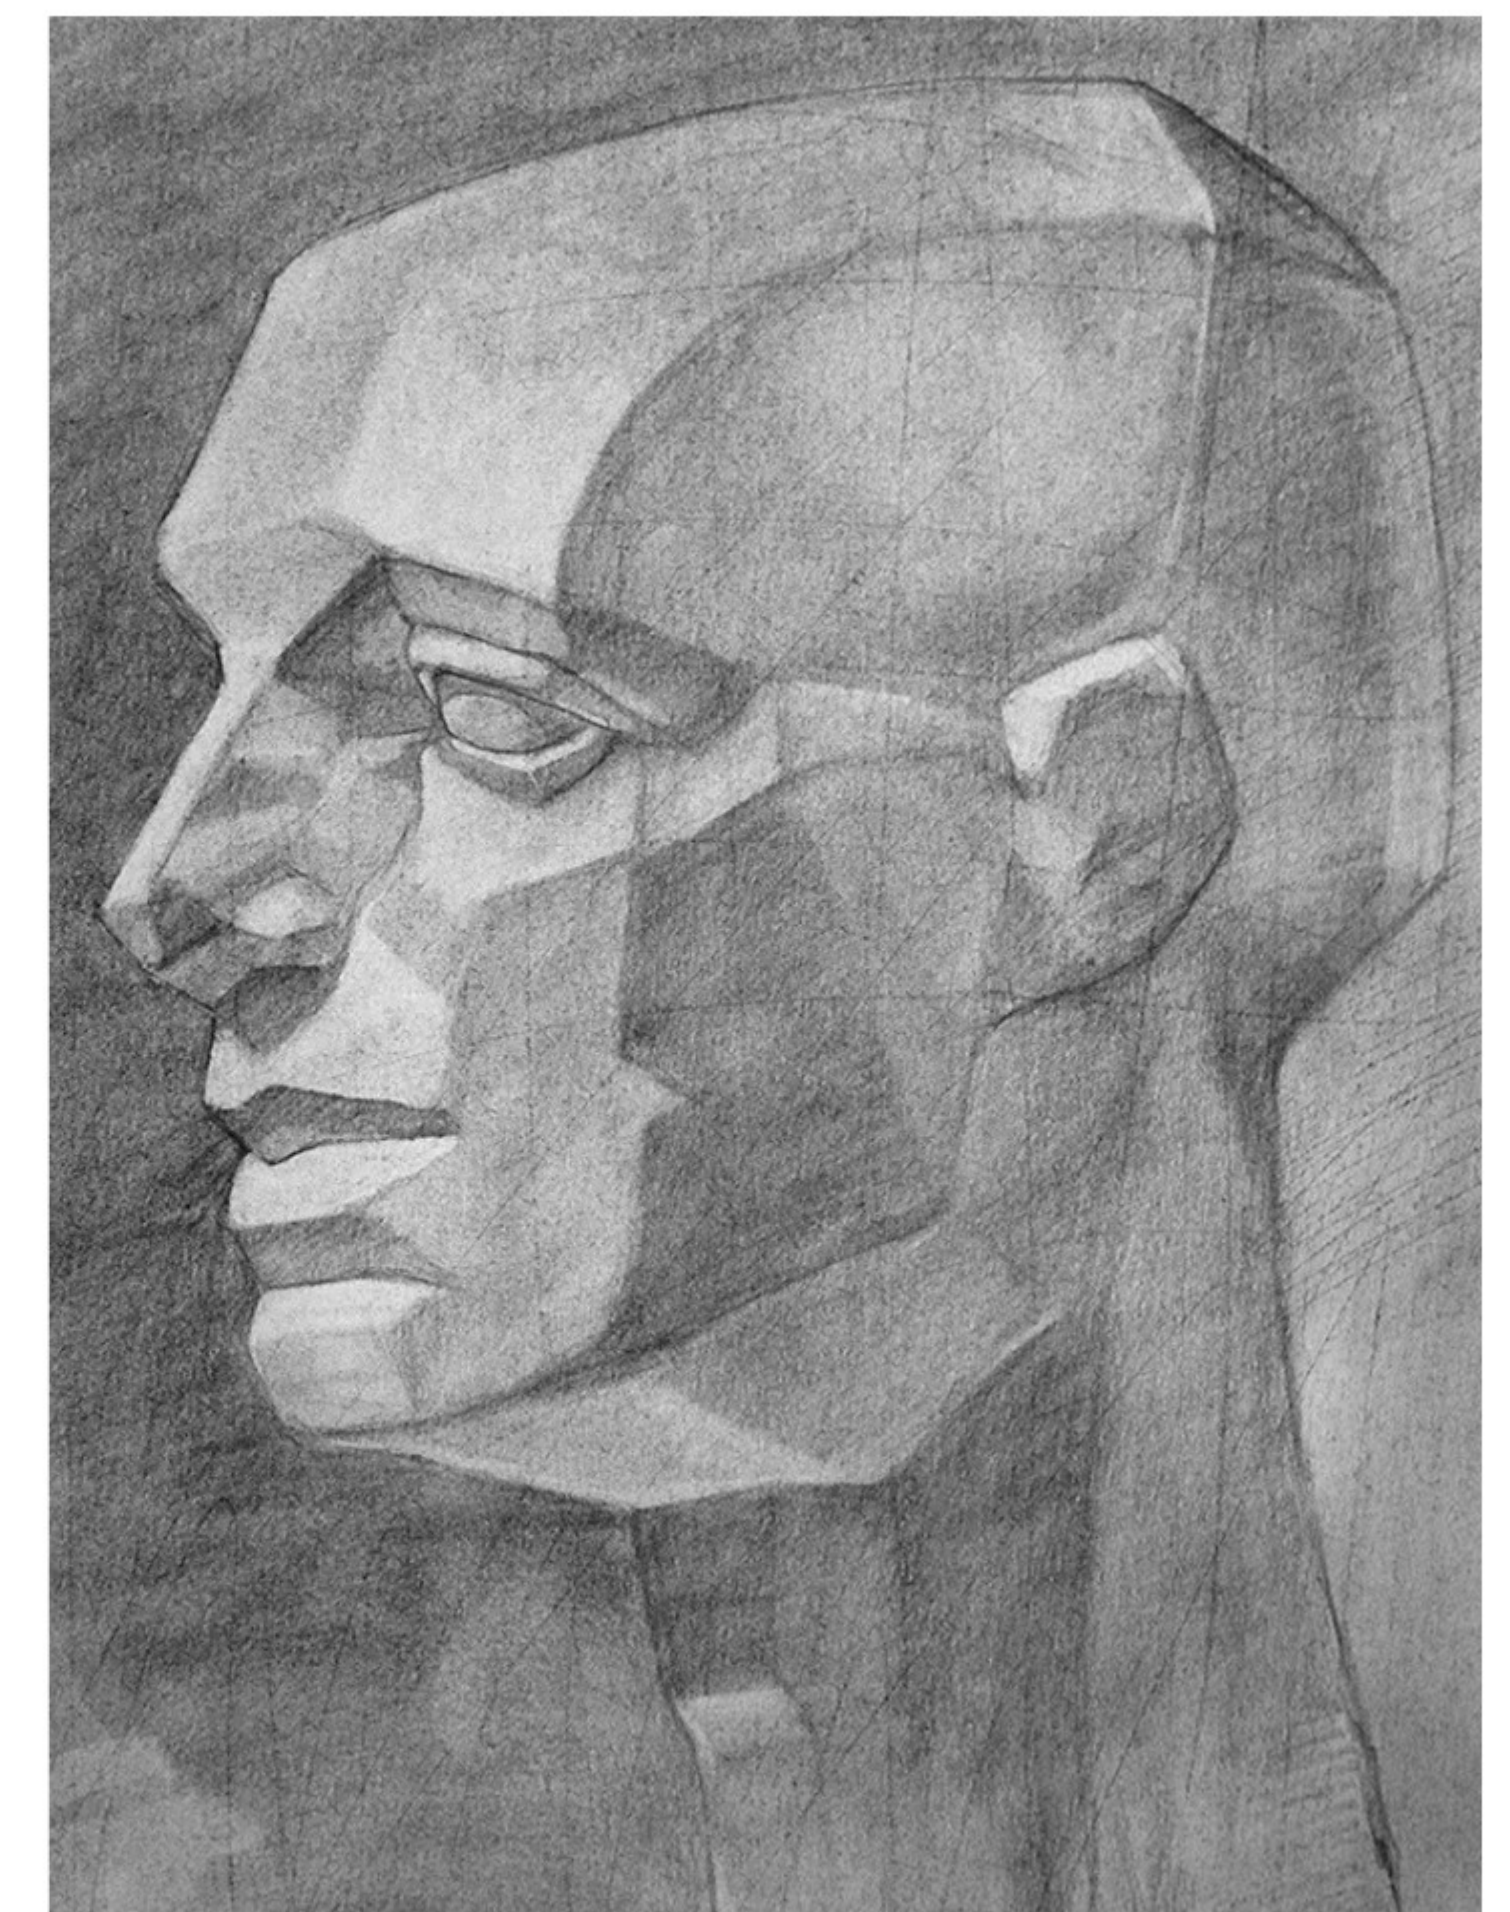

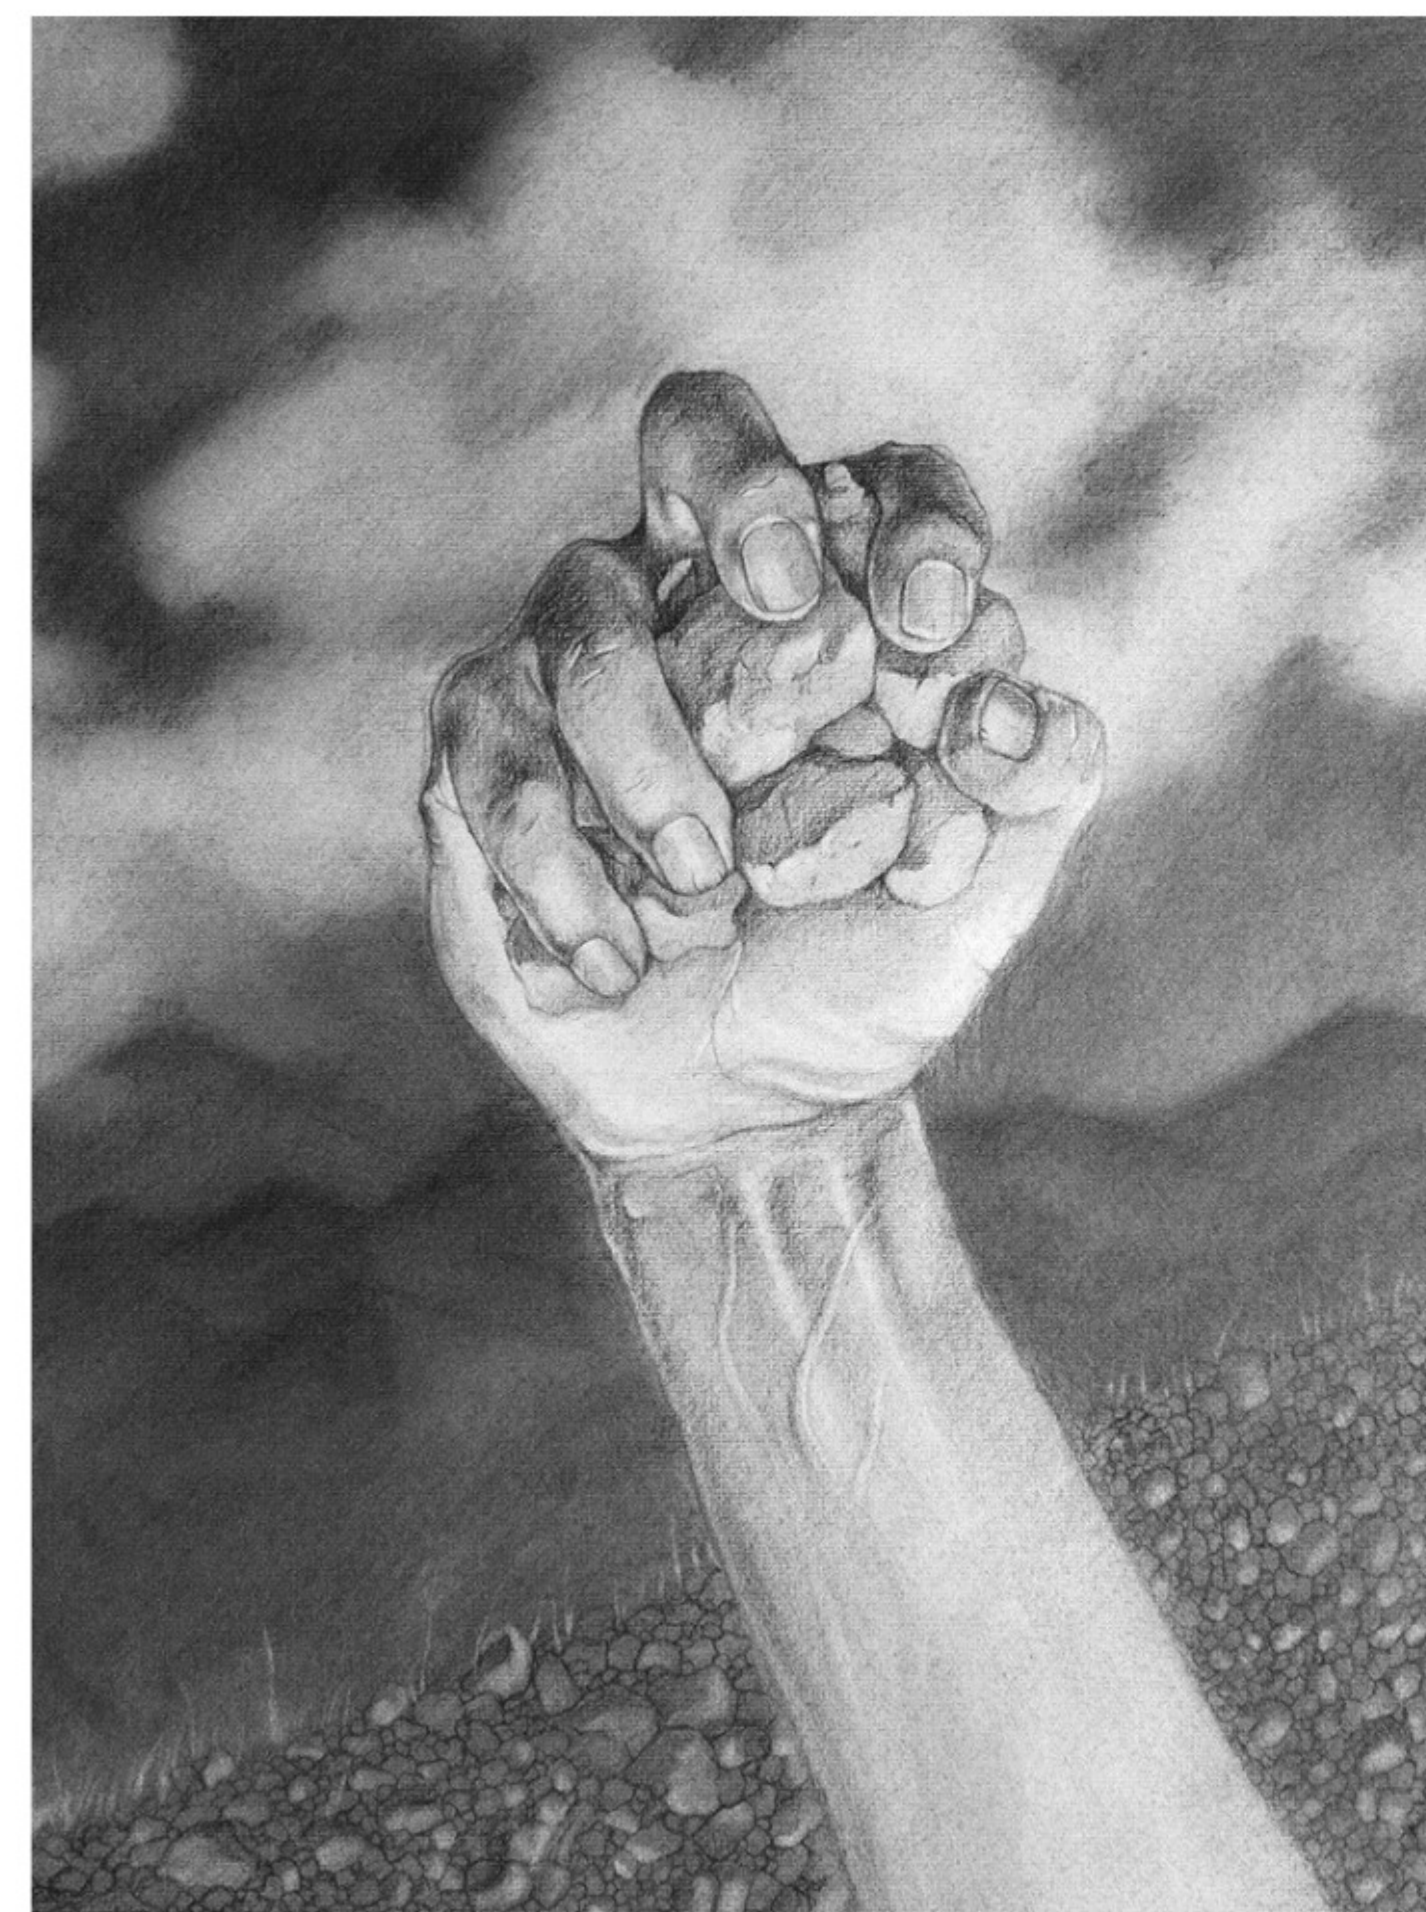

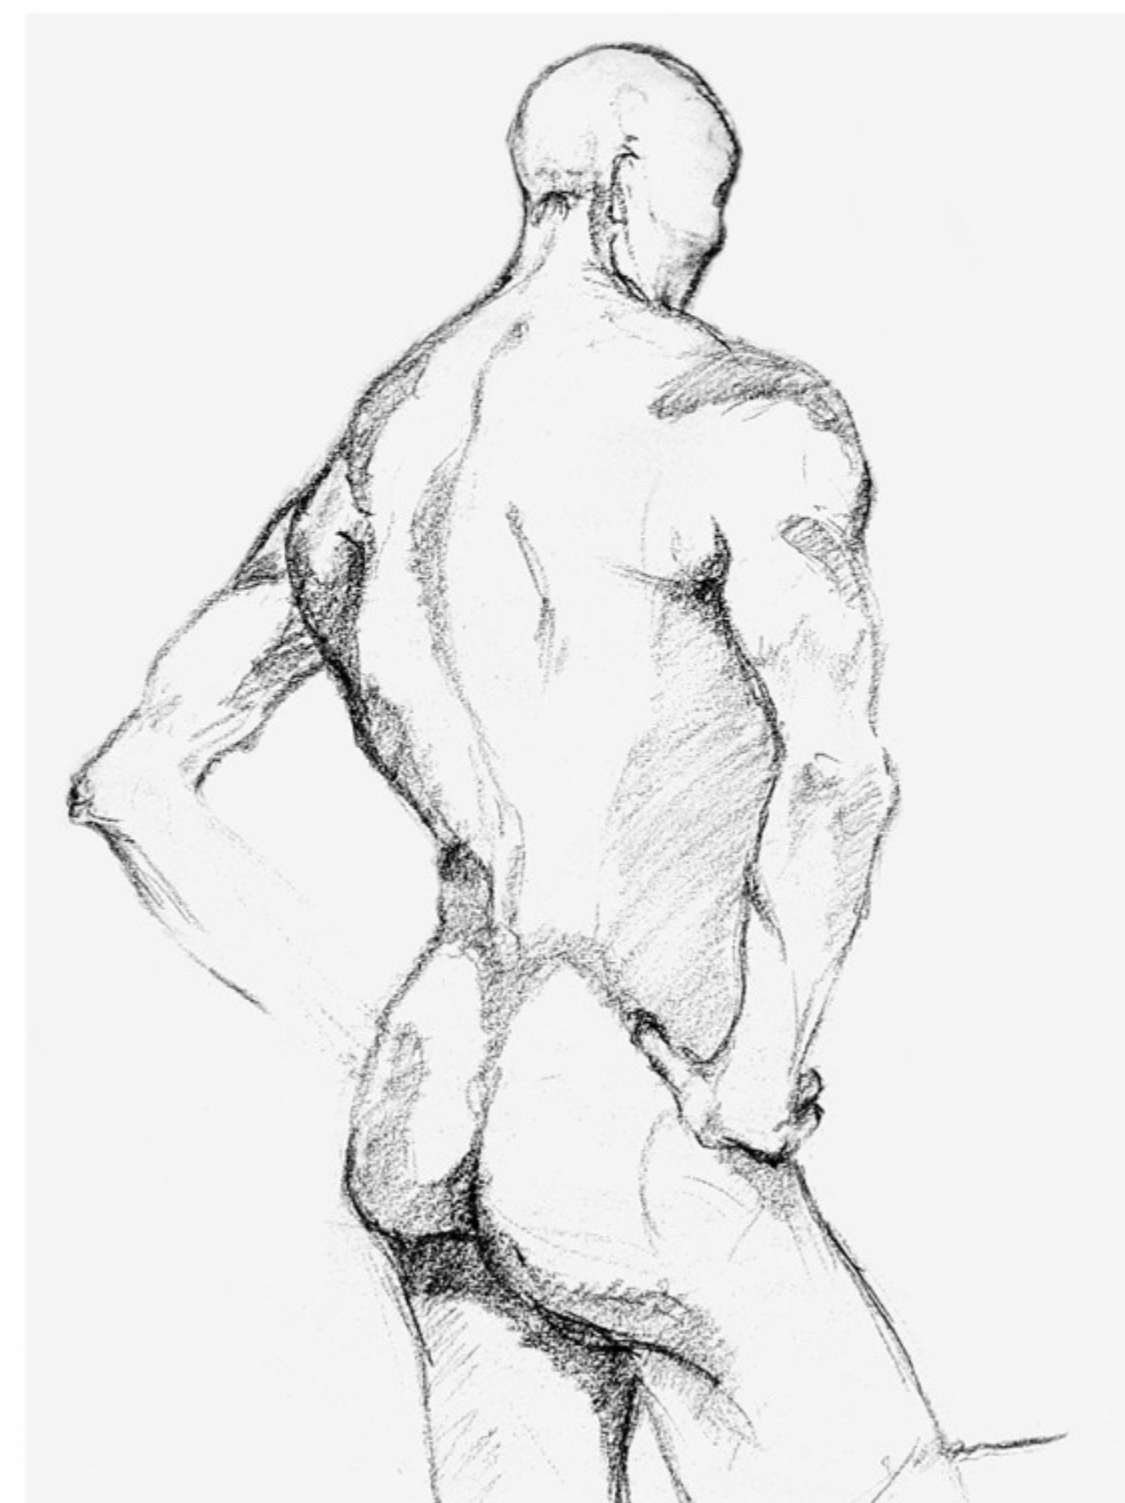

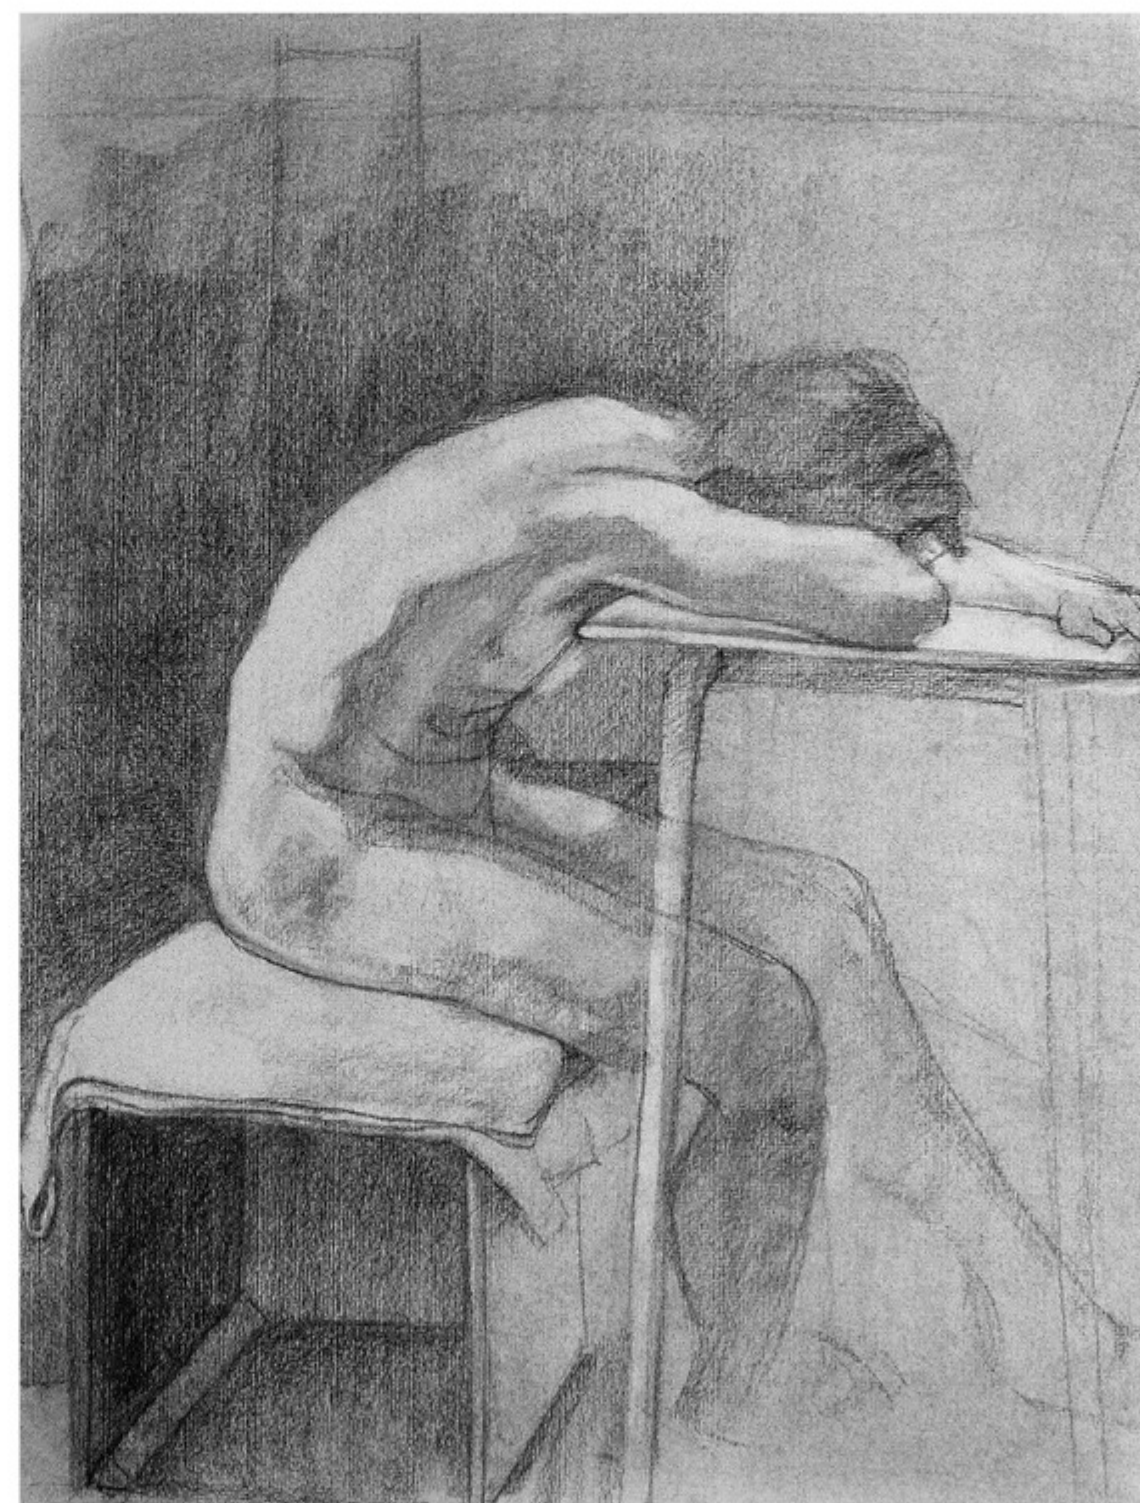

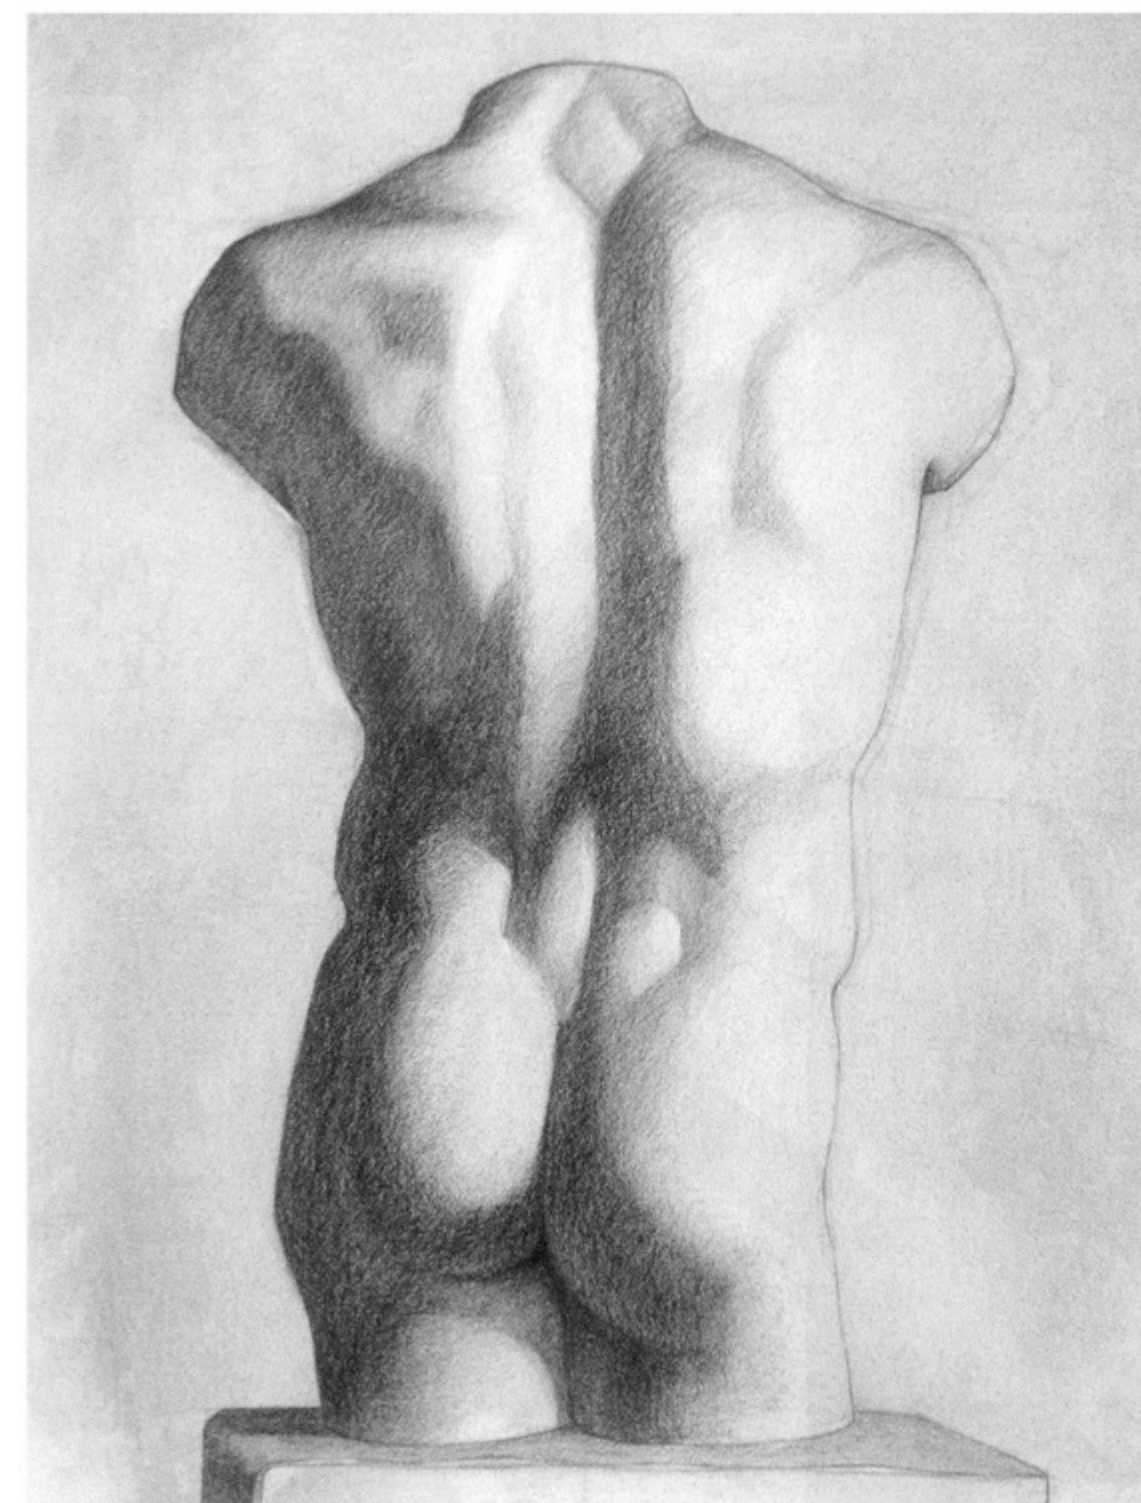

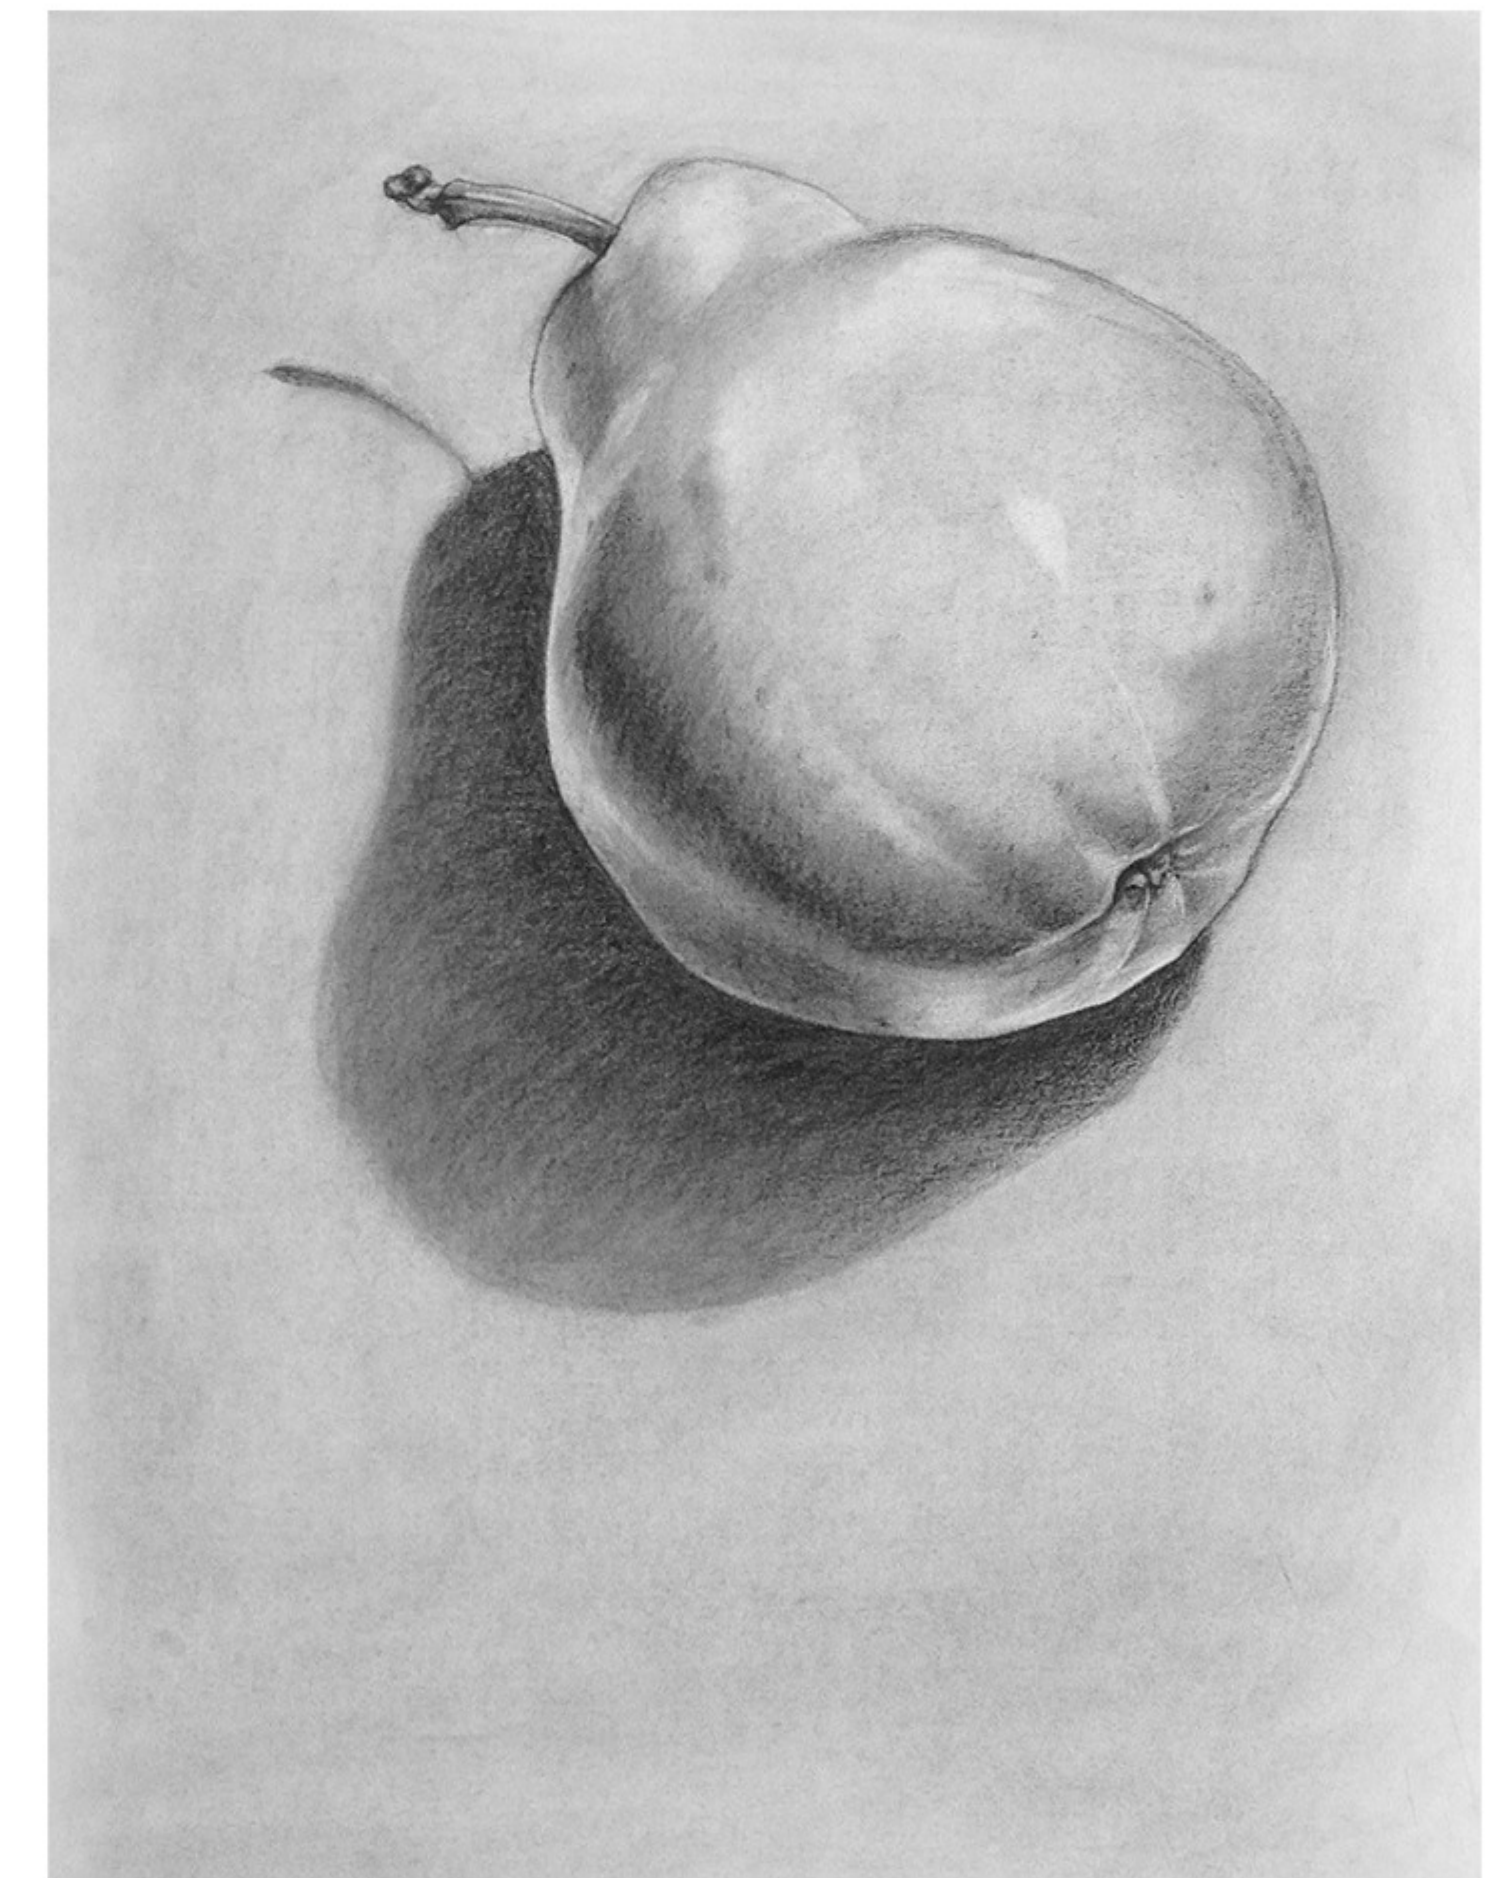

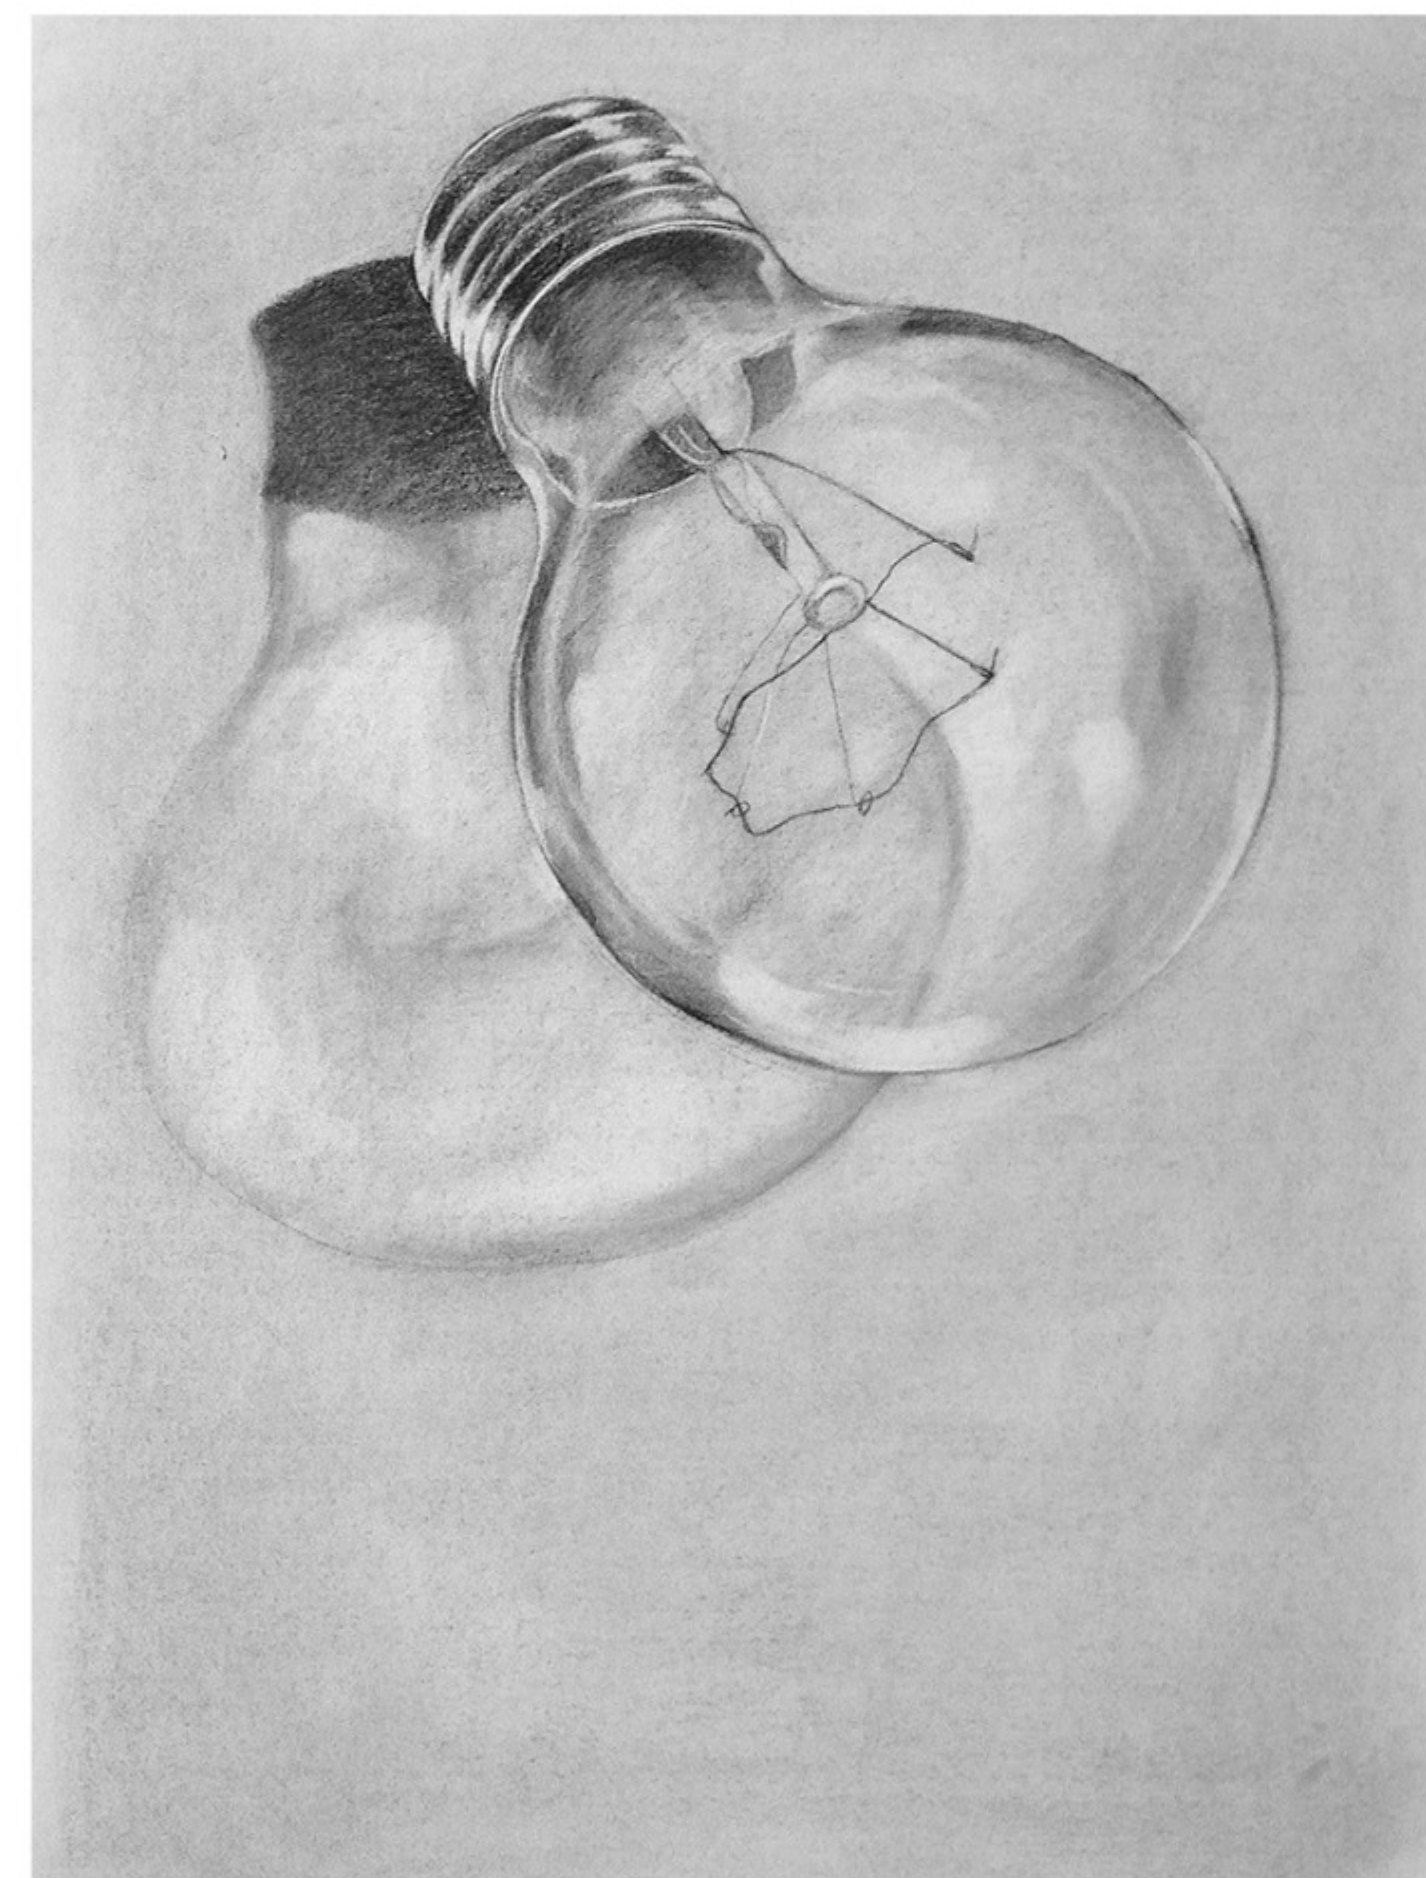

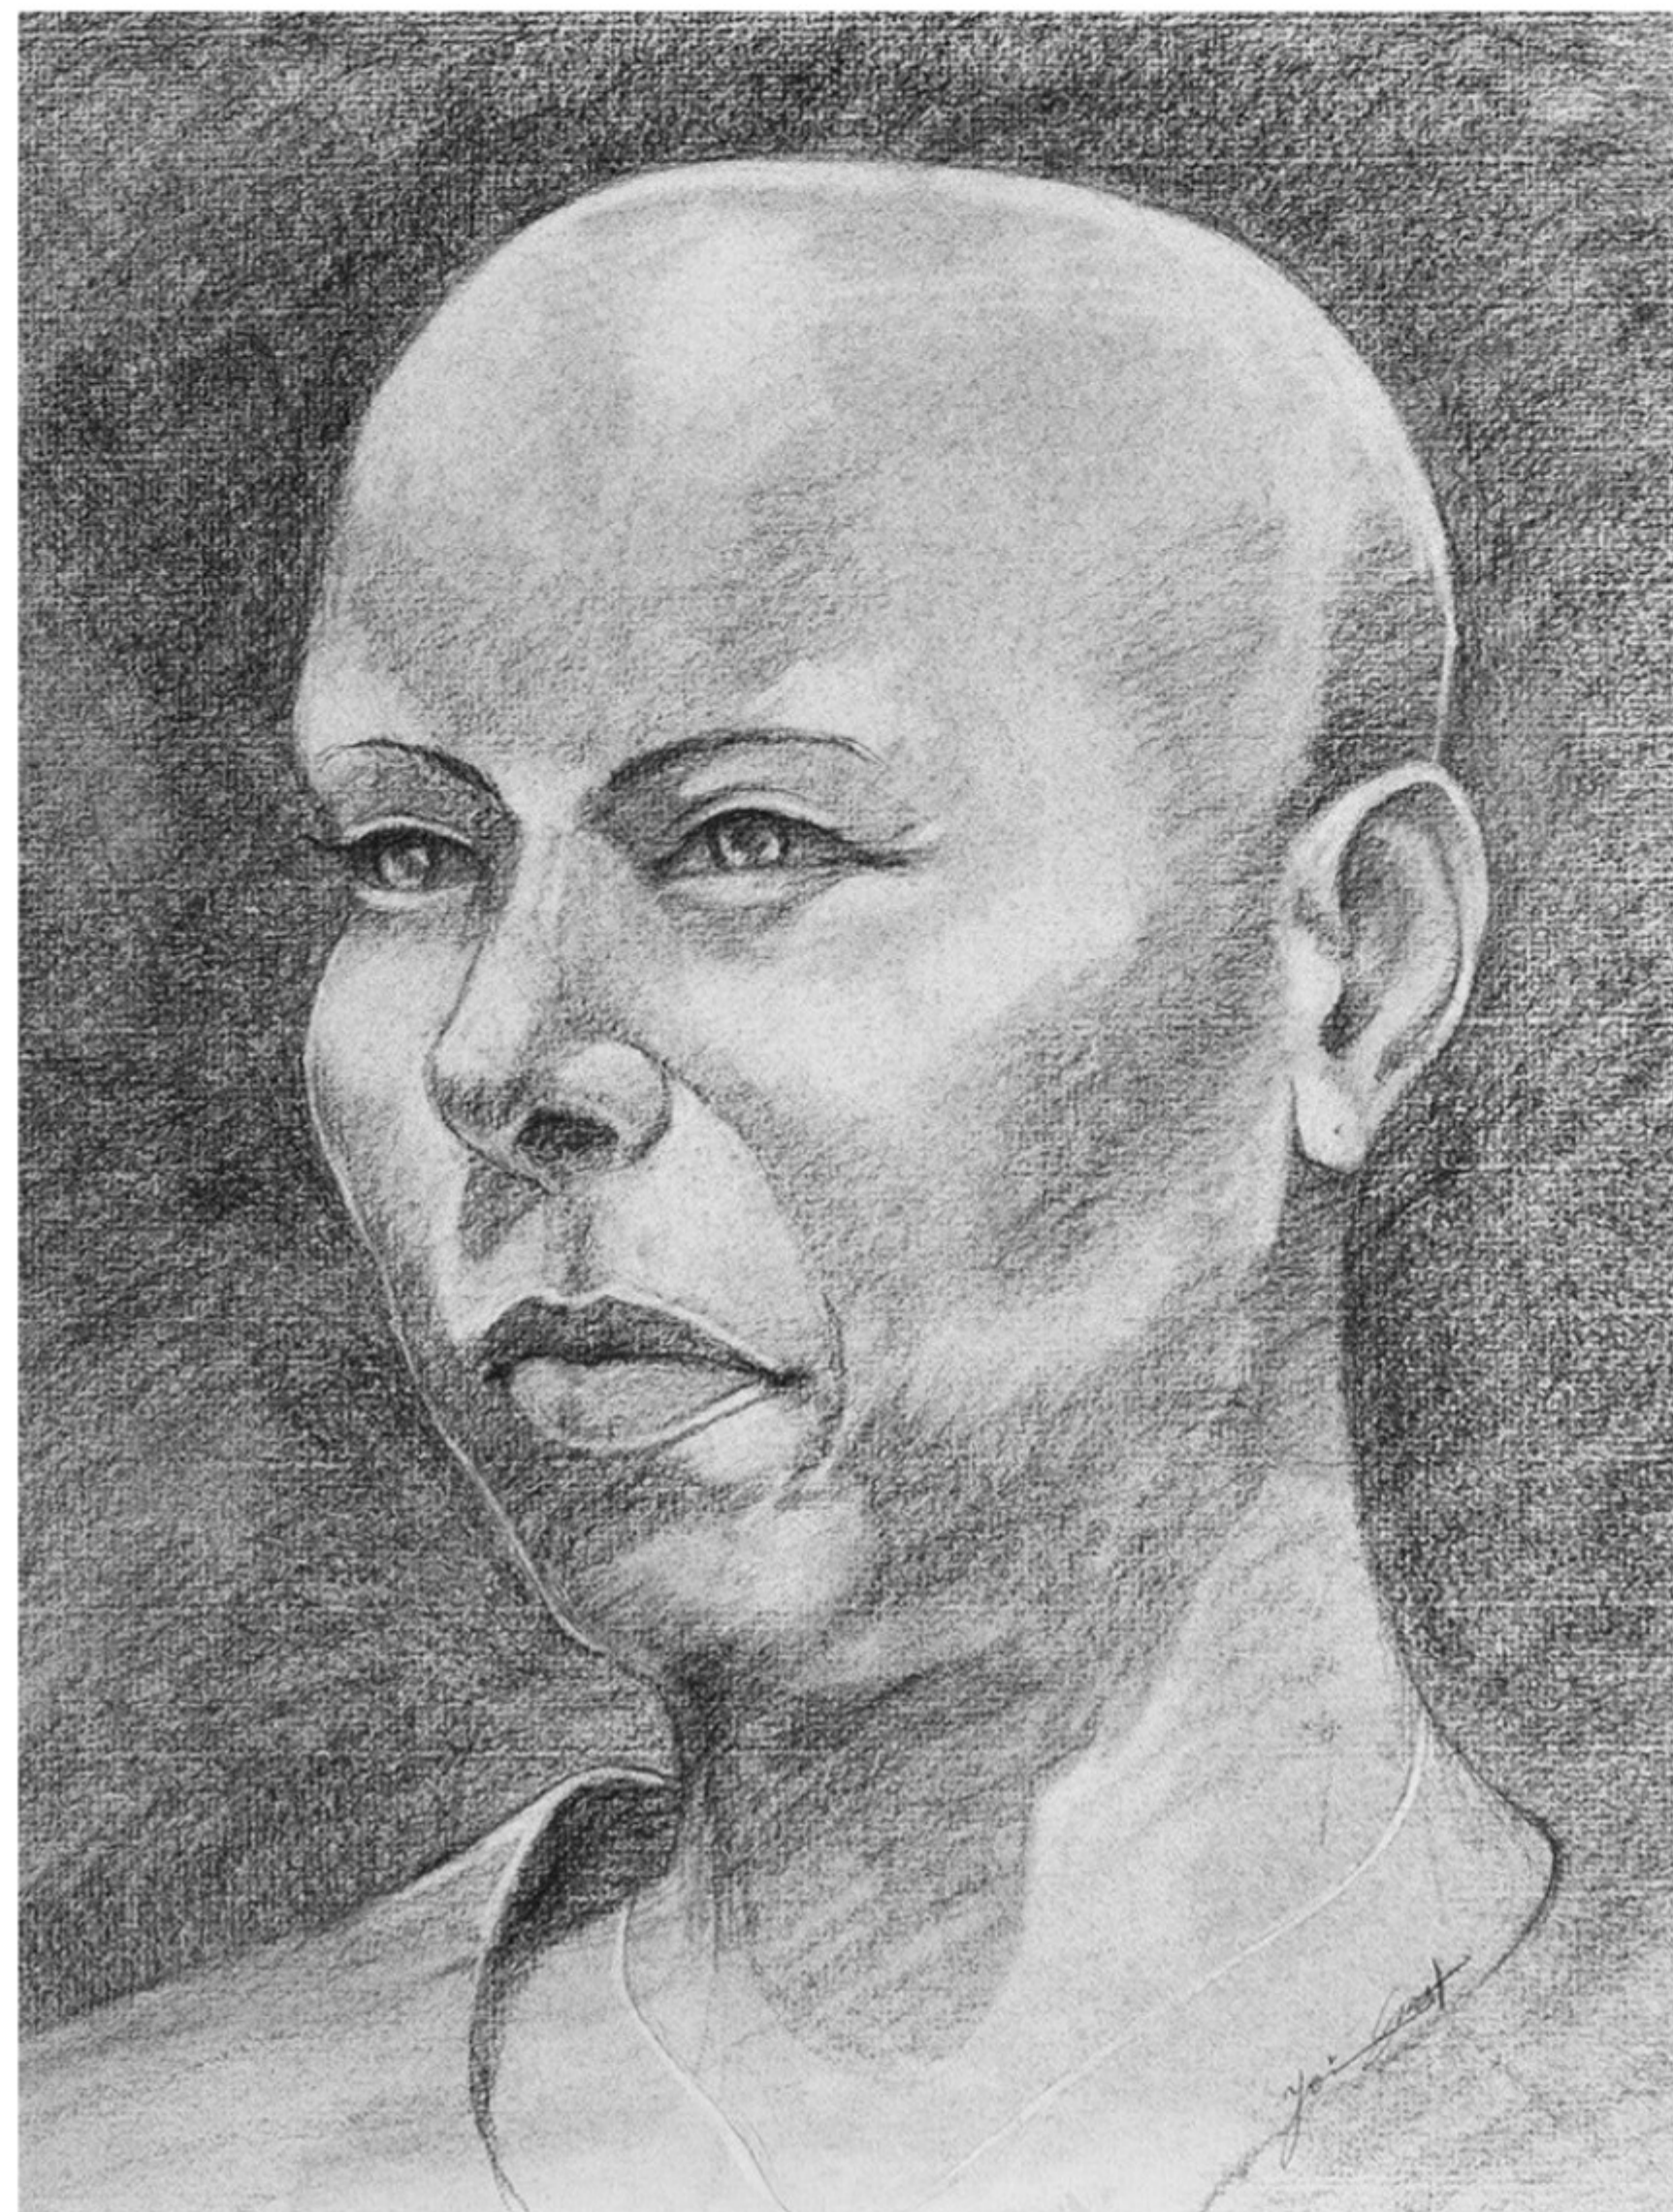

Reusable Water Bottle Concept: Modular Design

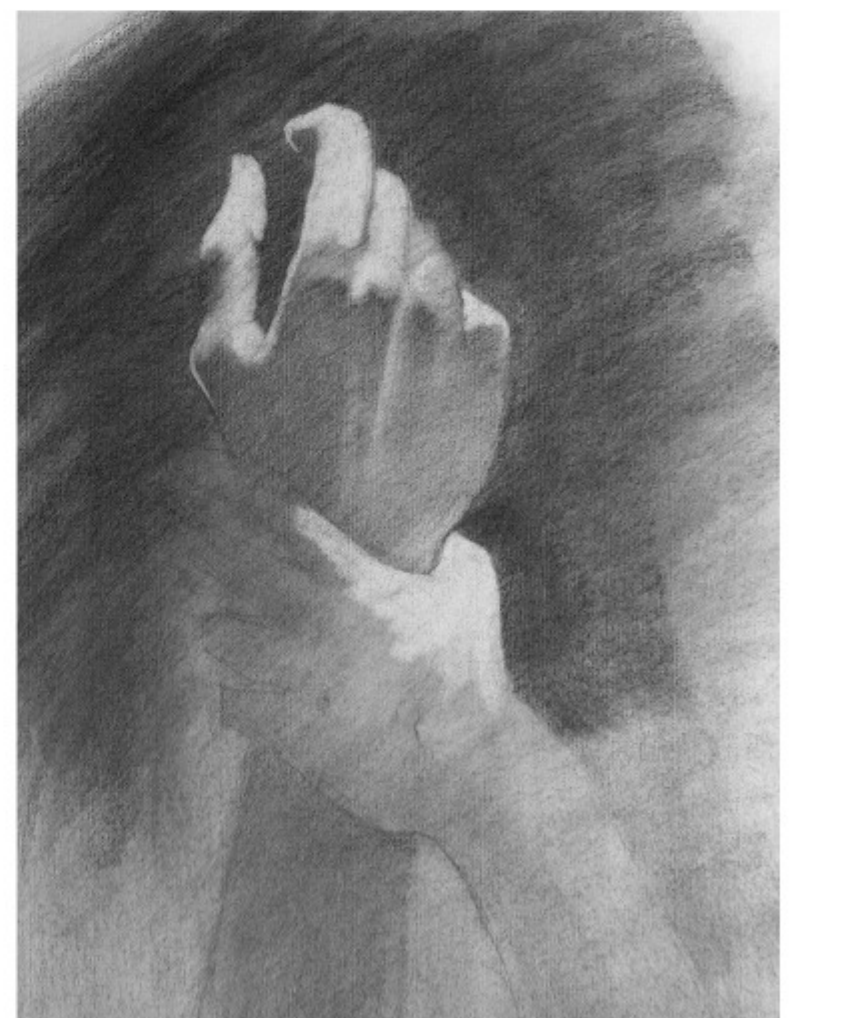

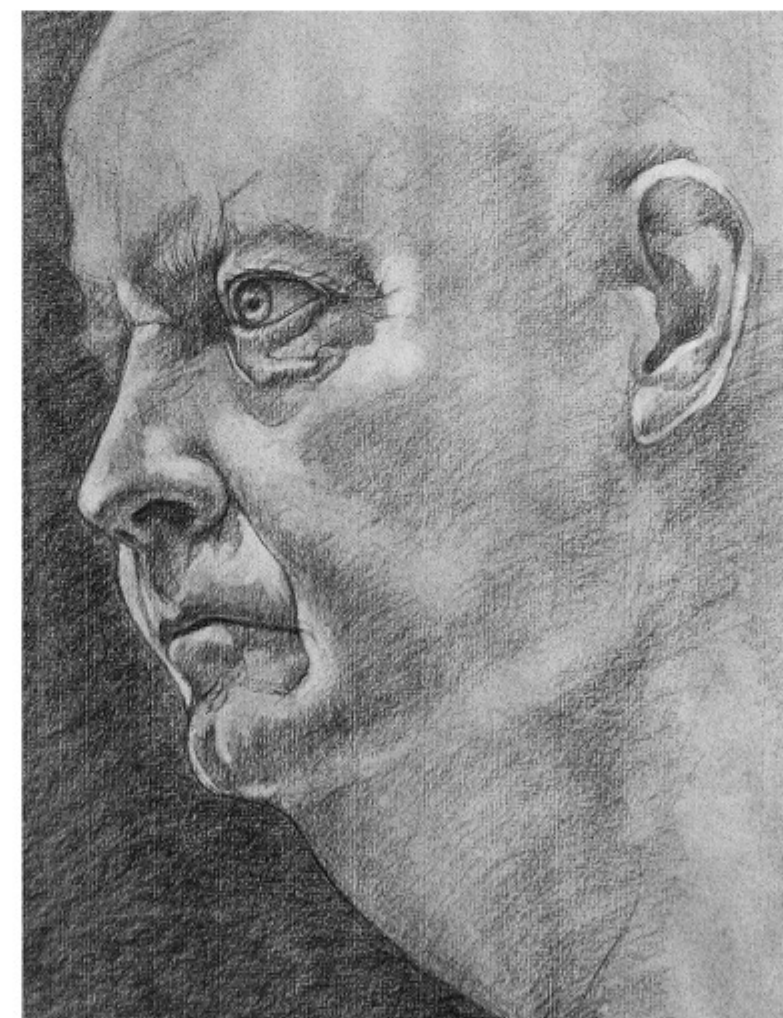

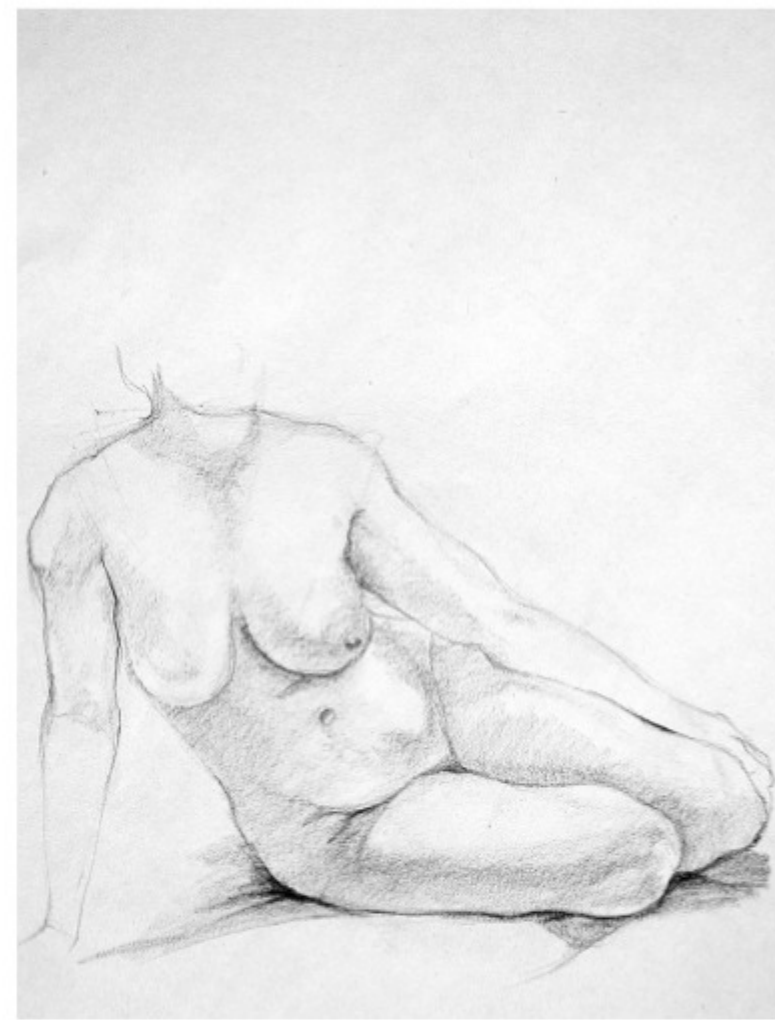

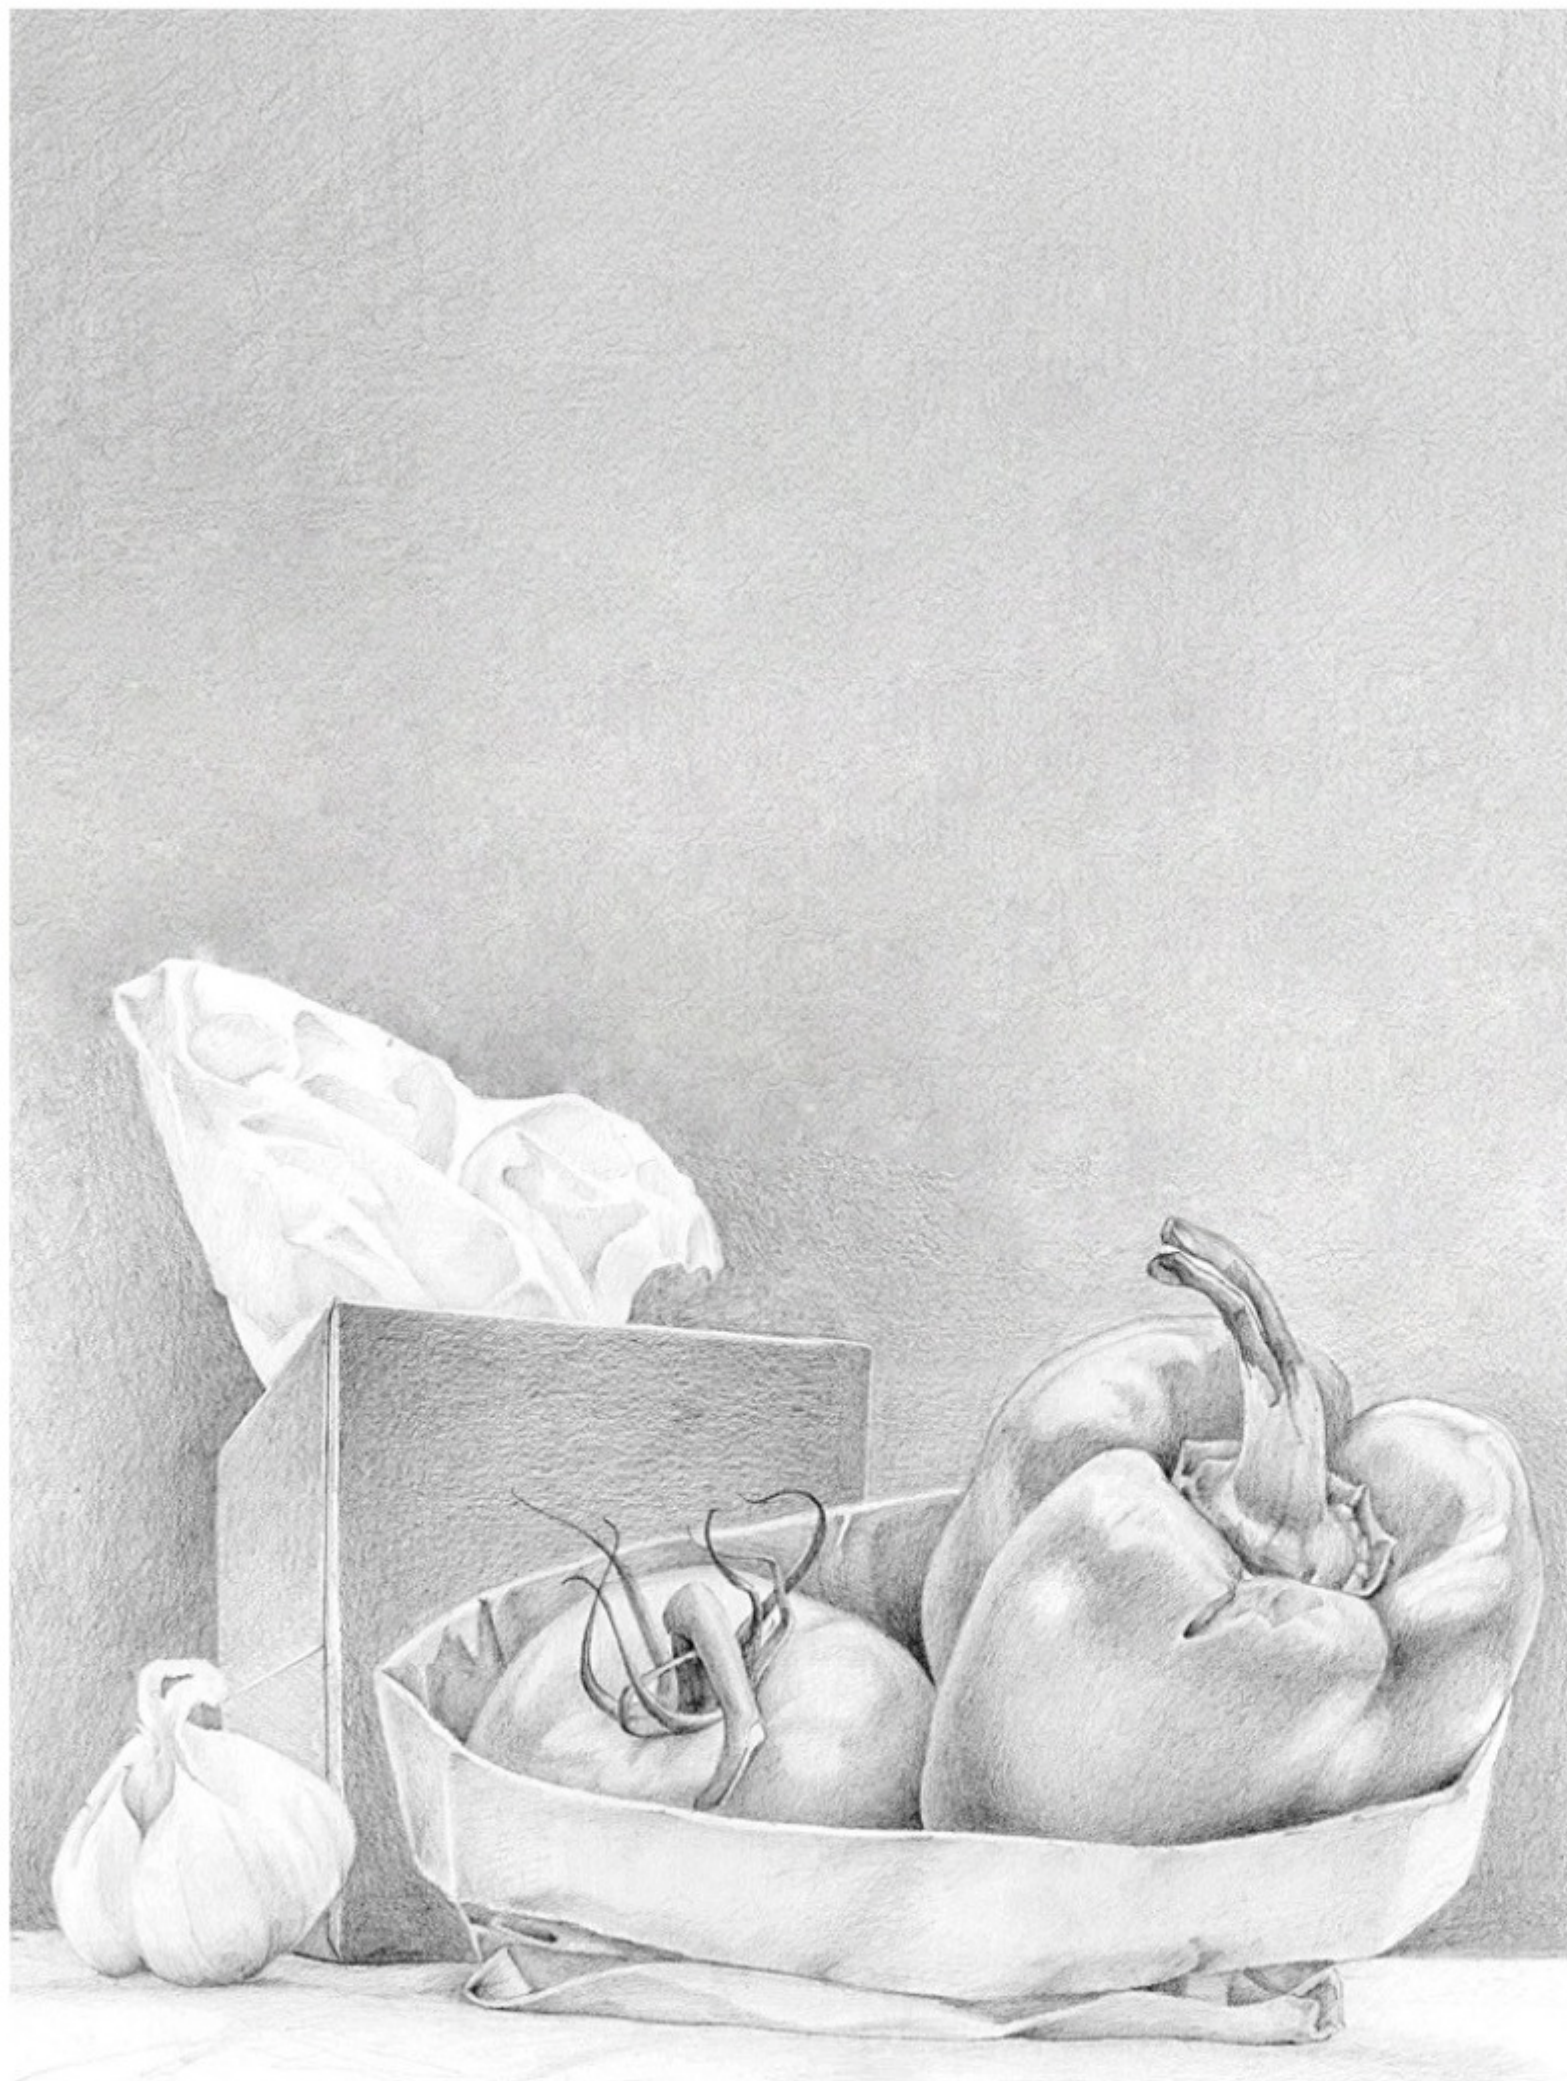

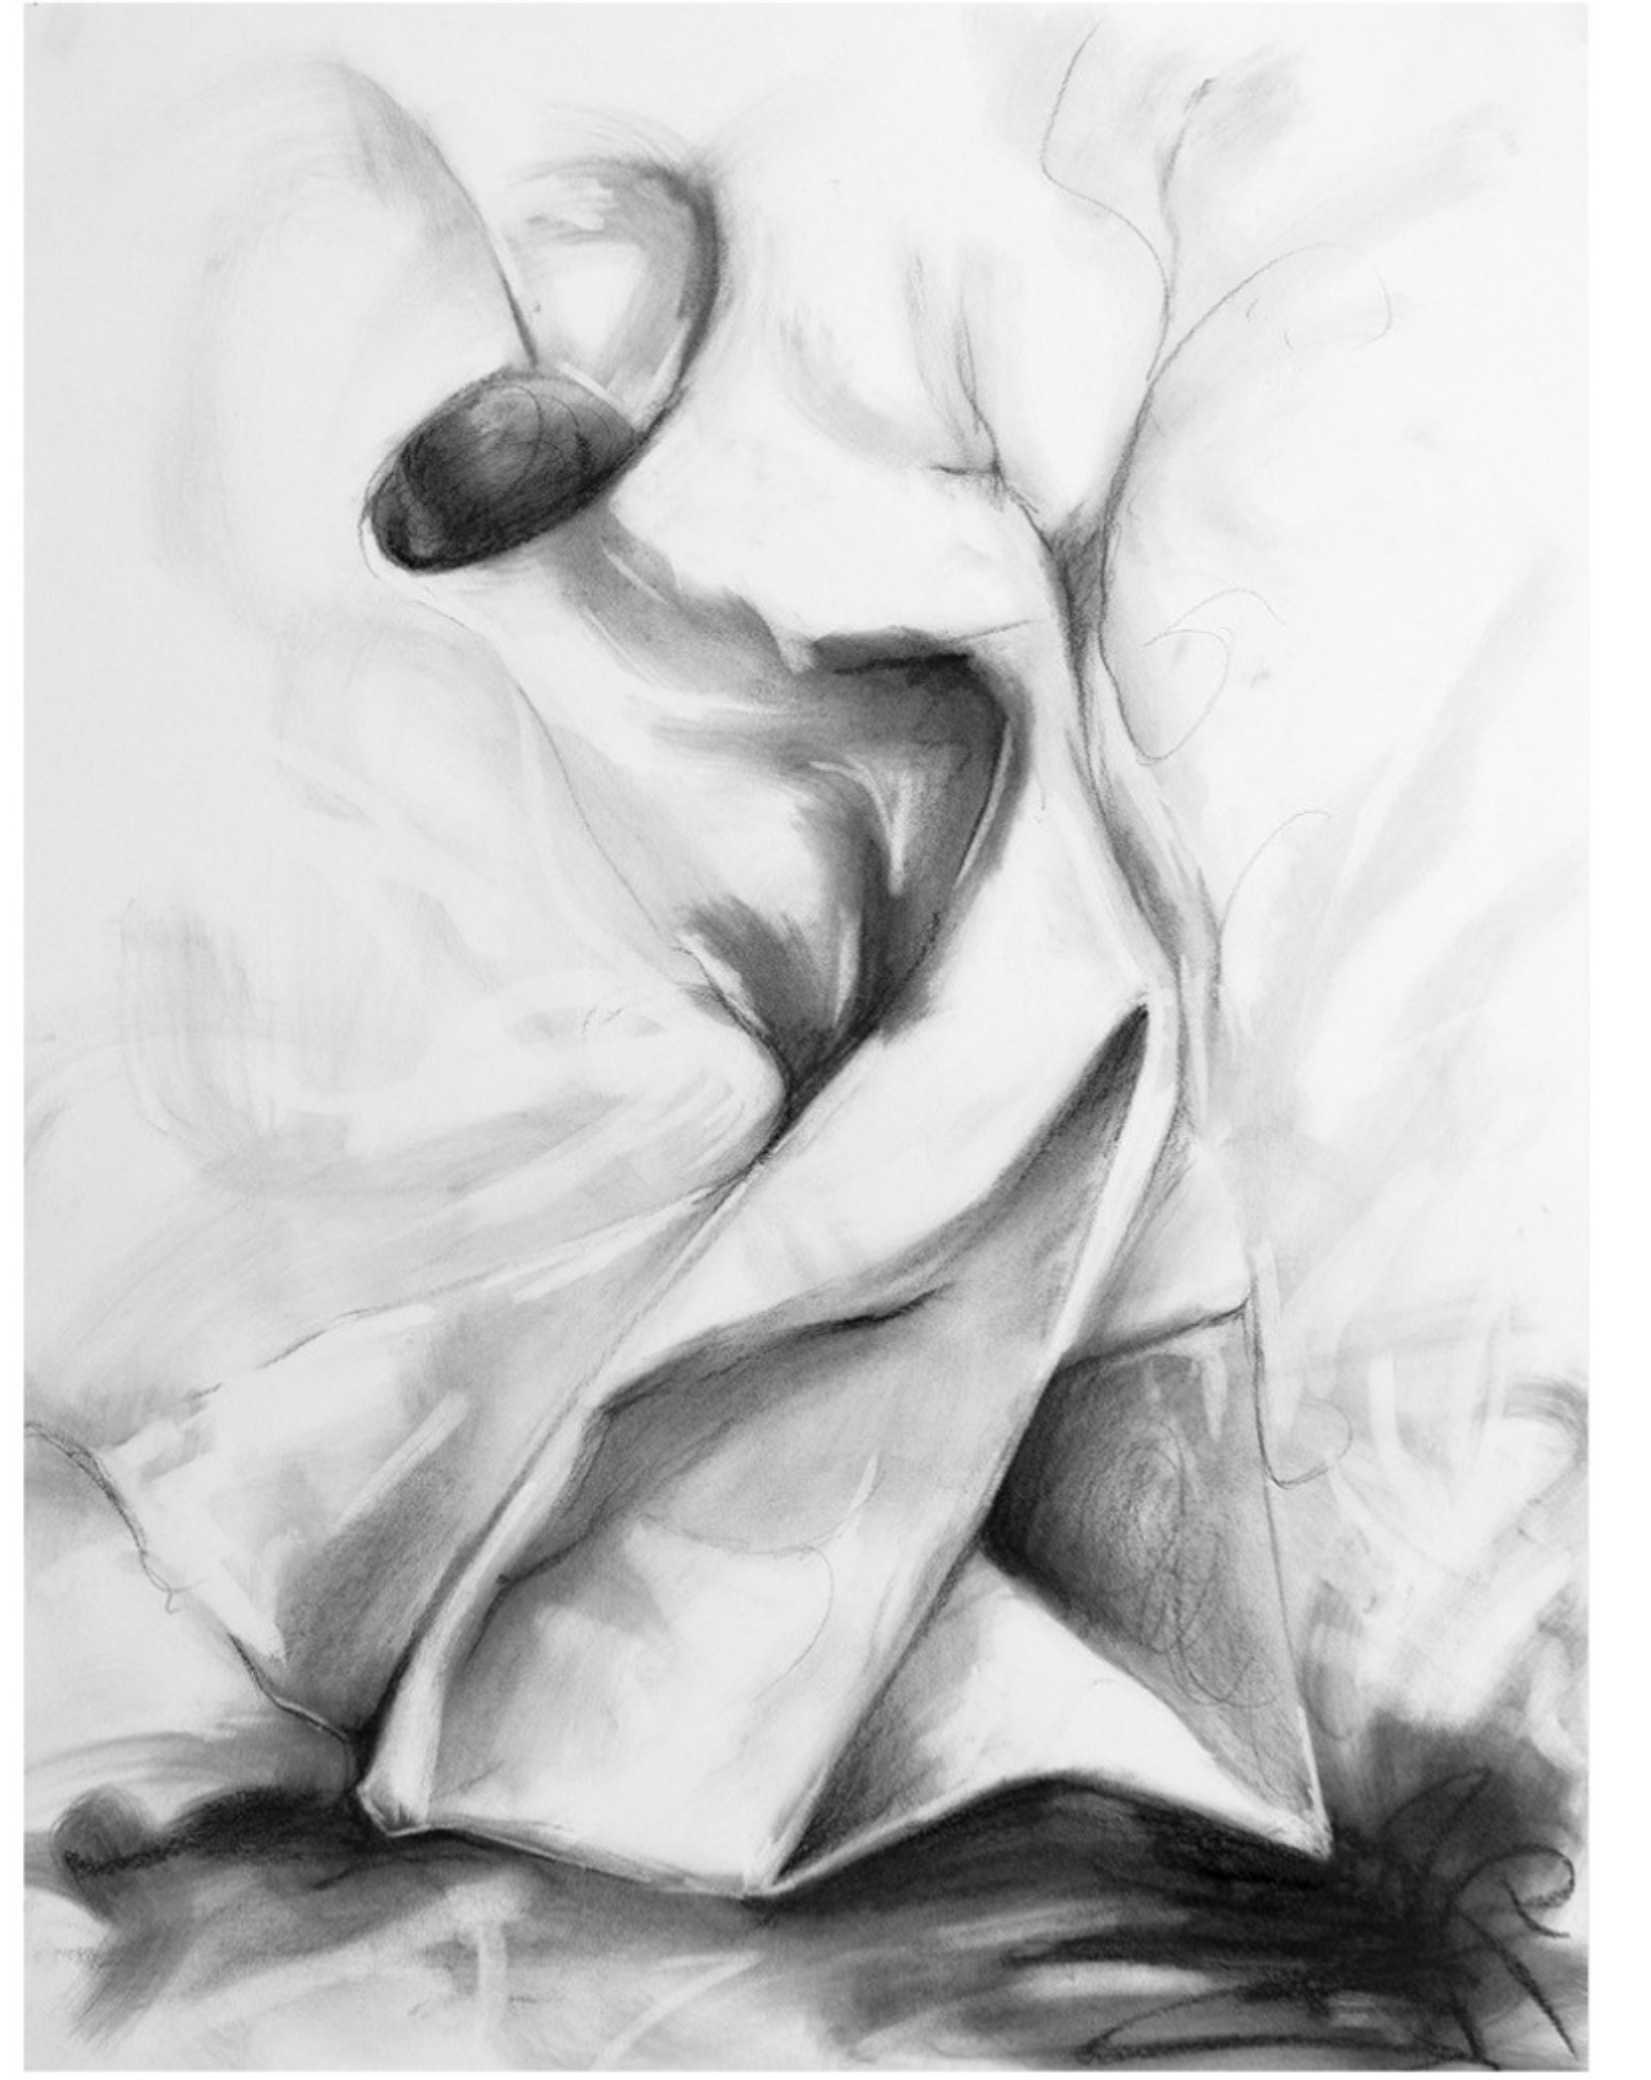

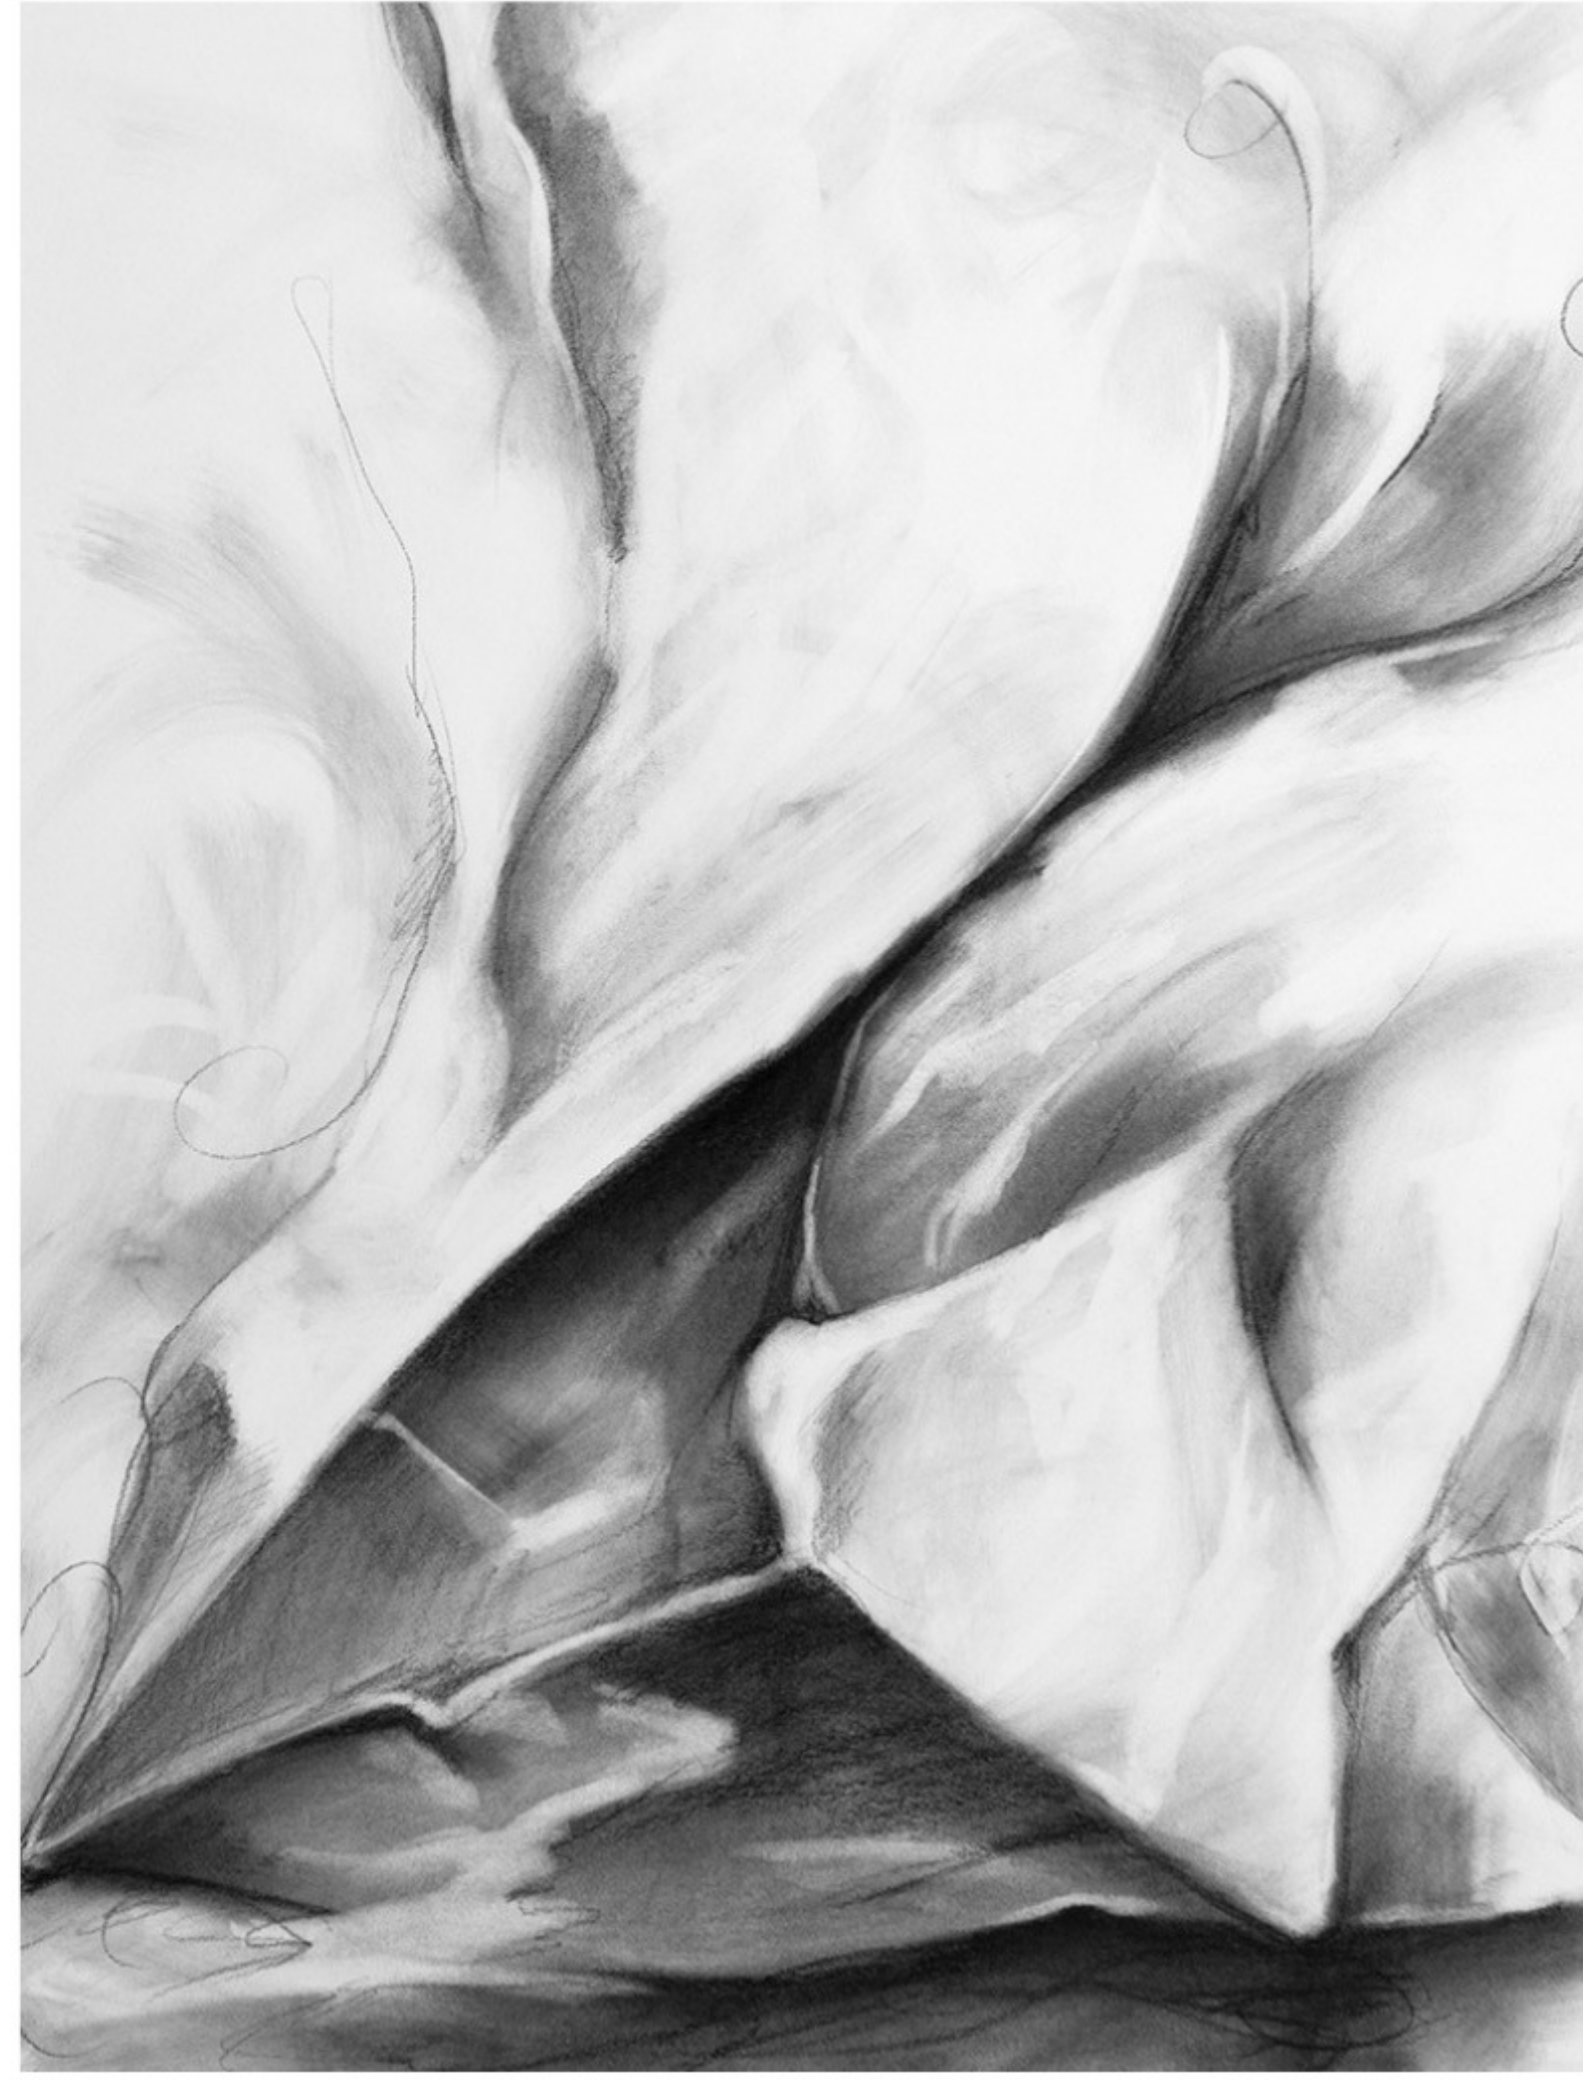

- + Explore concepts for modular, multi-size functionality
- + Study mechanical fit & modular connection methods
- + Ground concept in research on single-use waste & sustainability

Observational Drawing: Line, Form, and Perspective

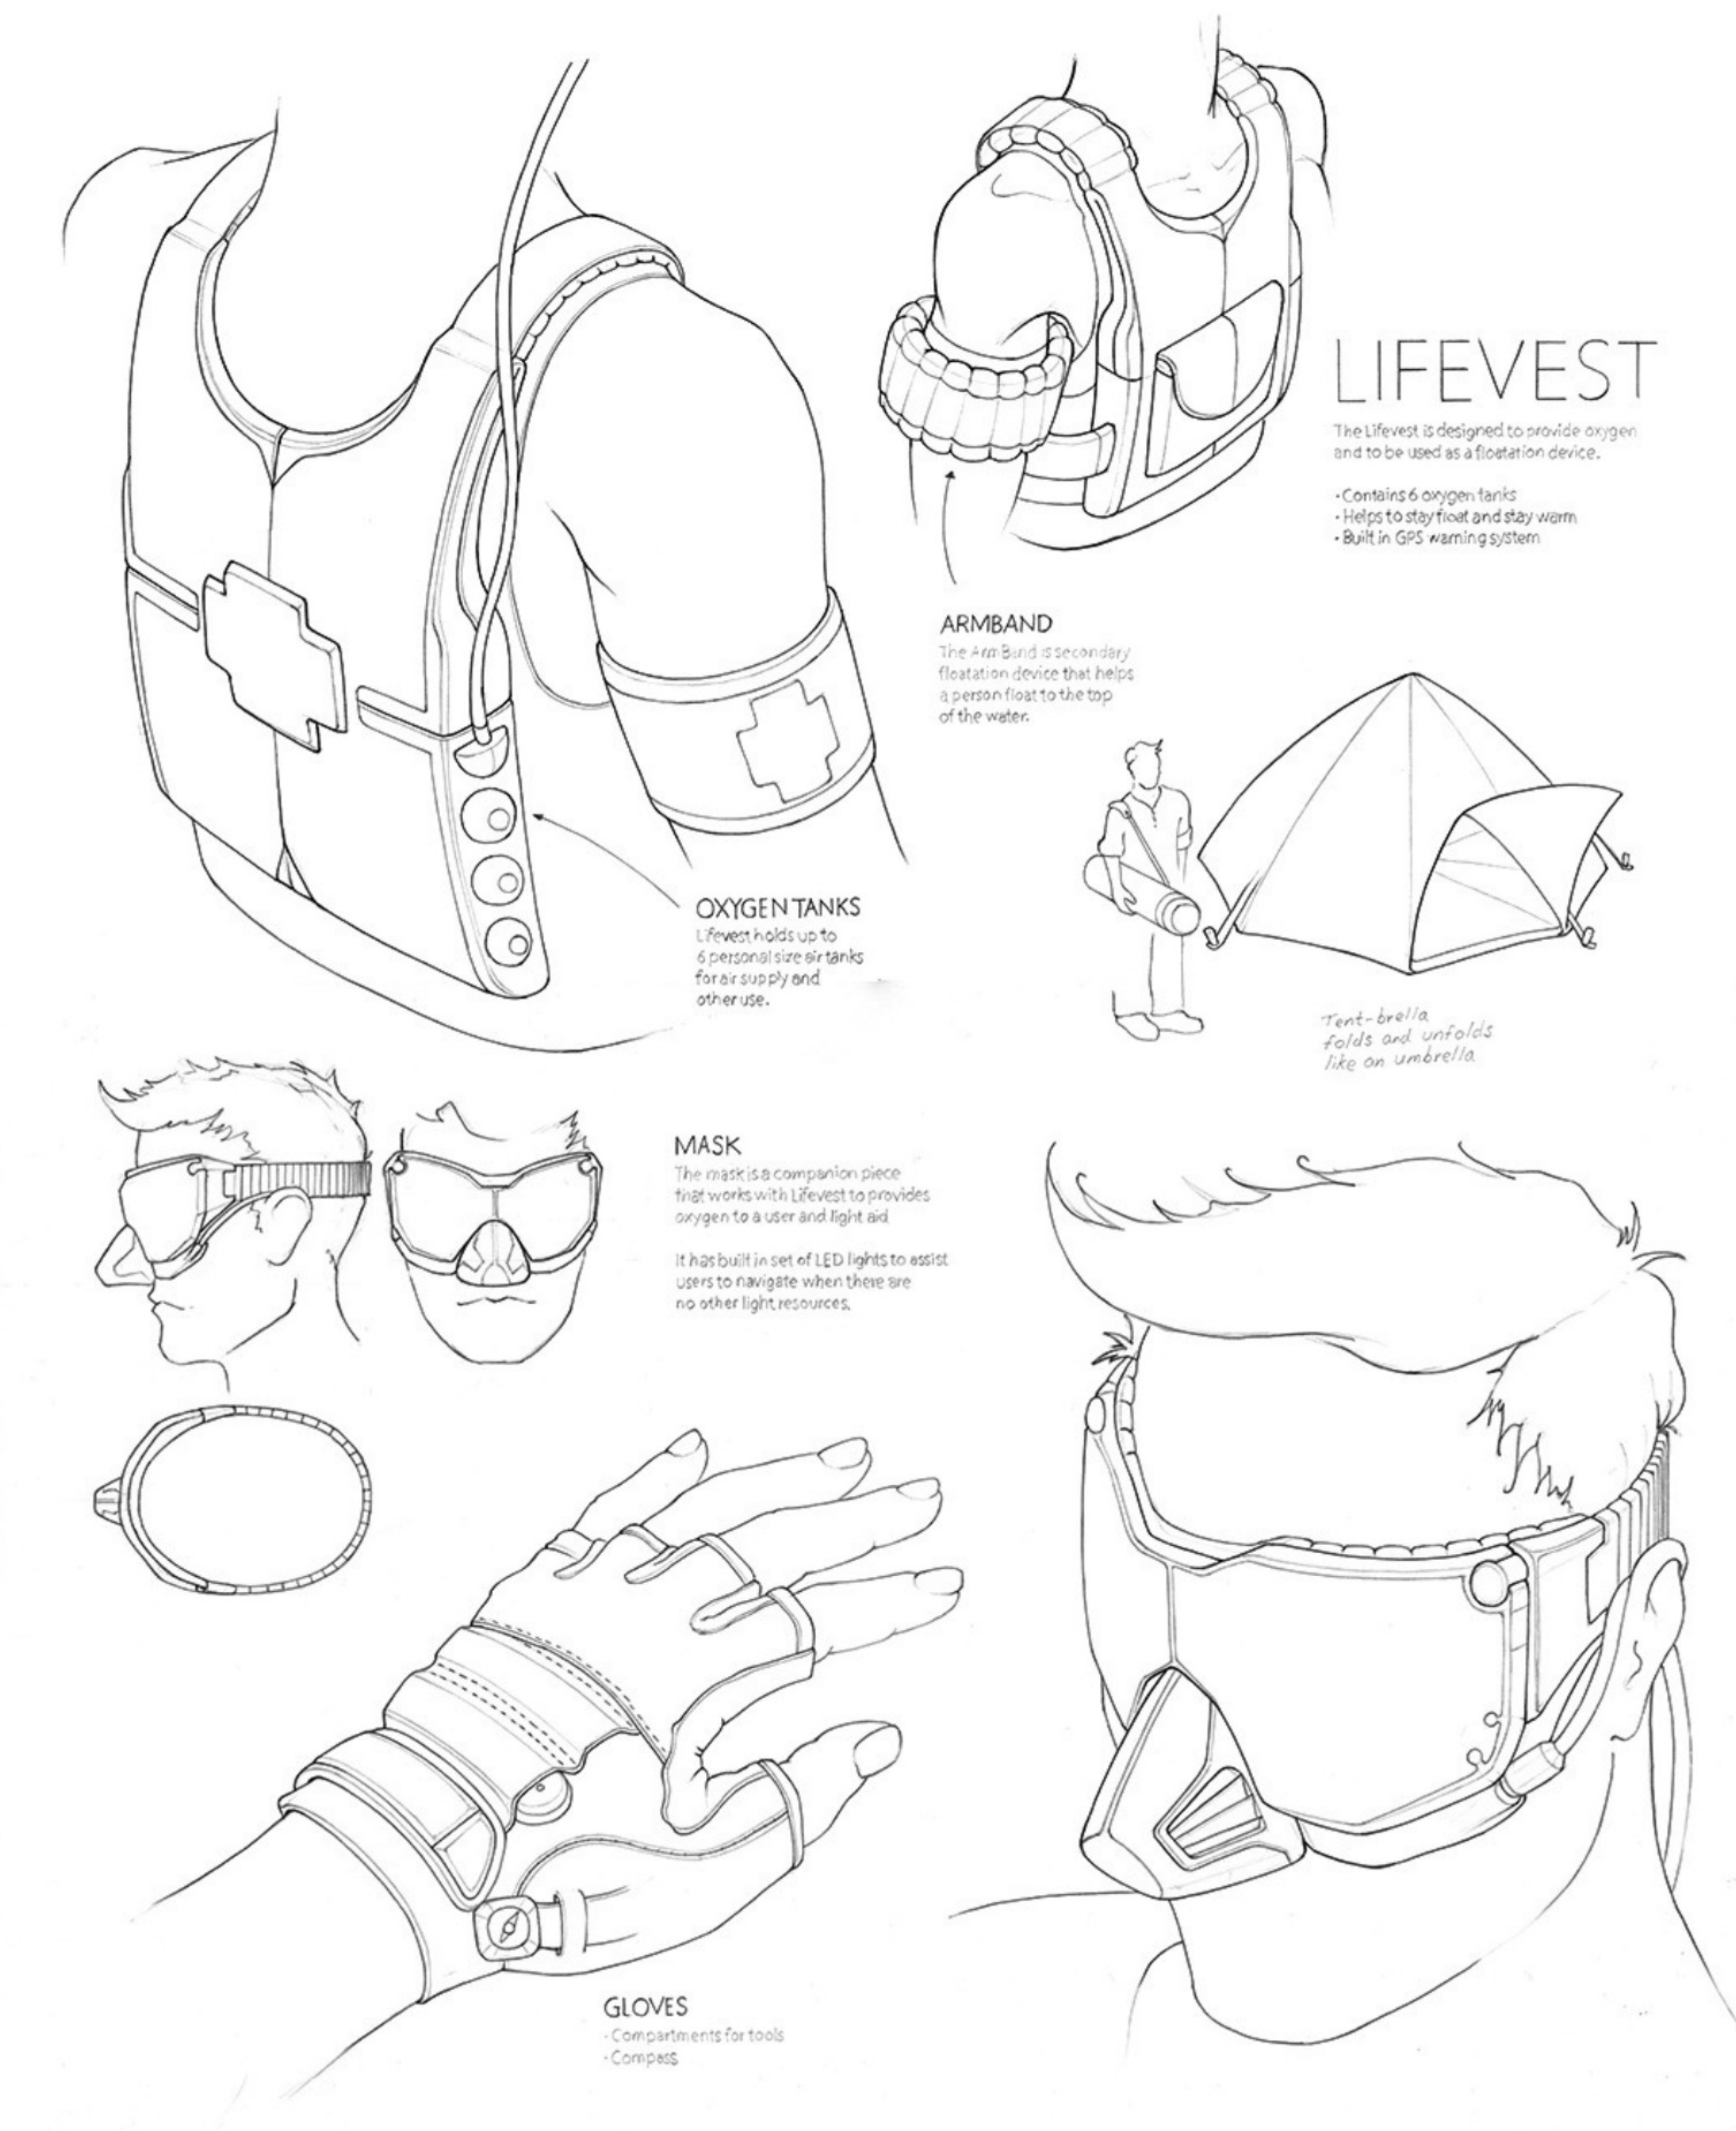

- + Practice construction, contour, and gesture techniques
- + Apply perspective and proportion to build spatial accuracy
- + Explore volume, texture, and form through observation studies

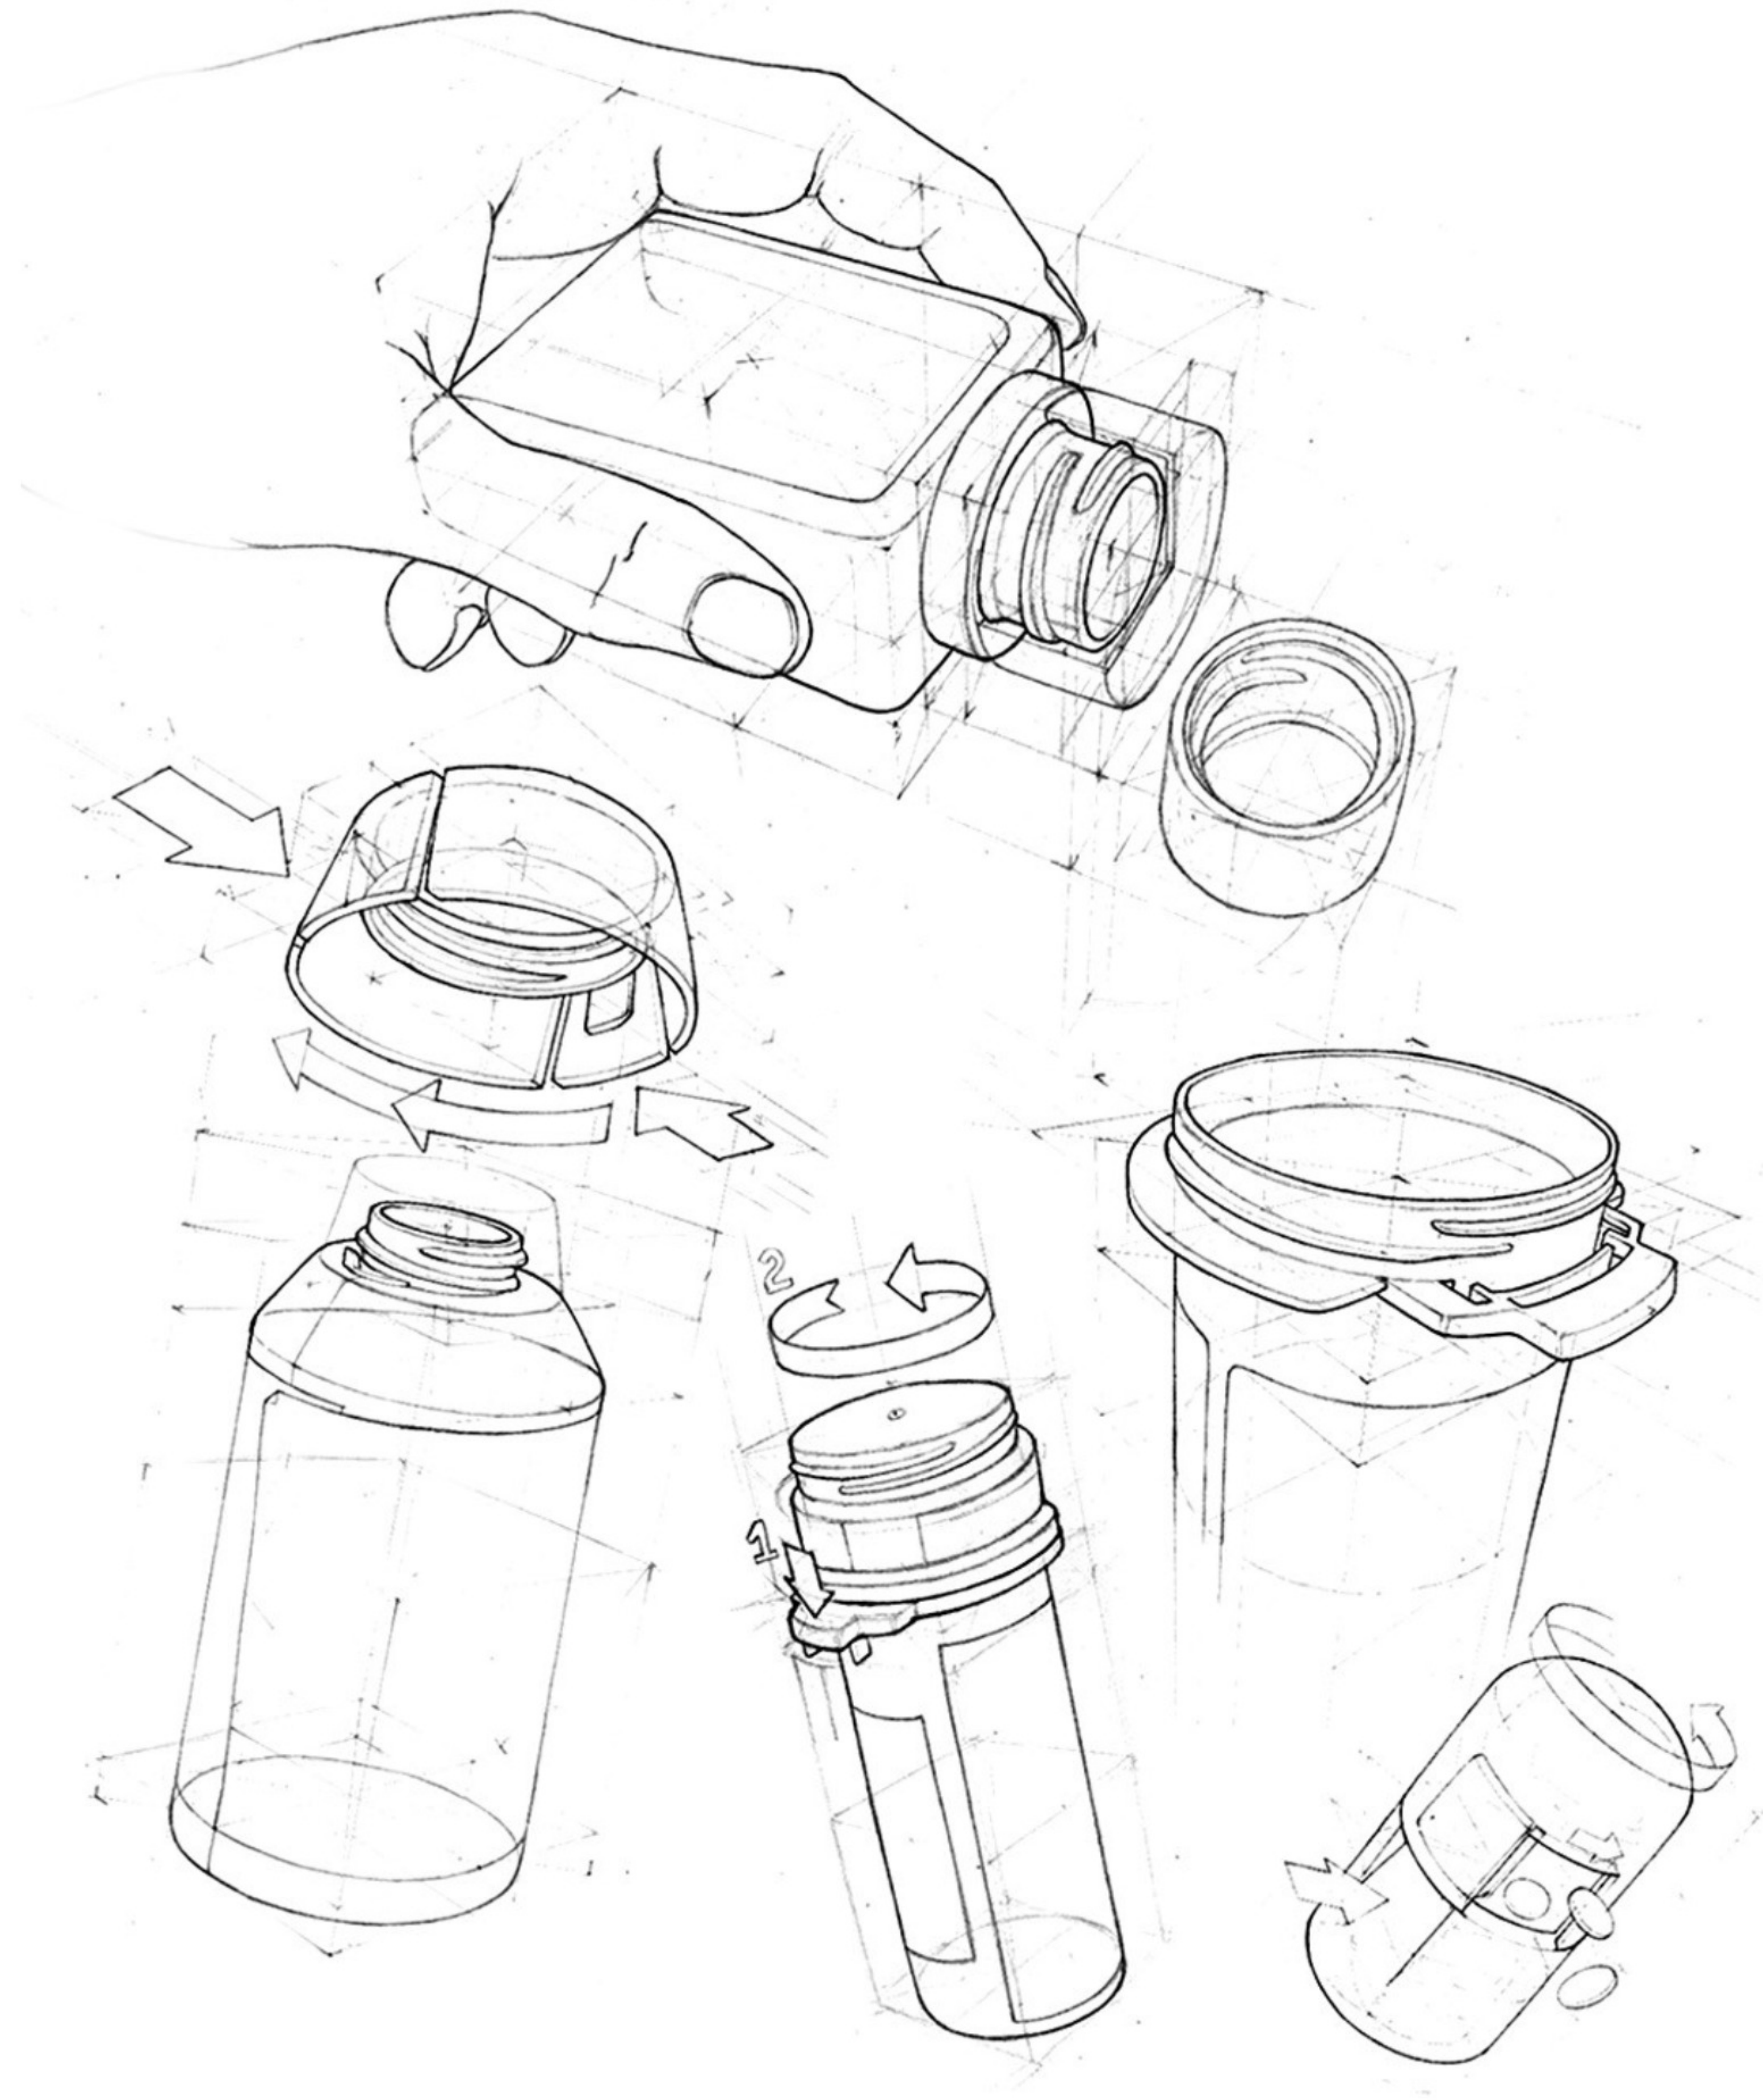

LifeVest Concept: Integrated Survival Kit Design

- + Explore multifunctional survival kit solutions
- + Develop concepts for eye protection, oxygen, & flotation support
- + Express ideas through exploratory sketching & form studies

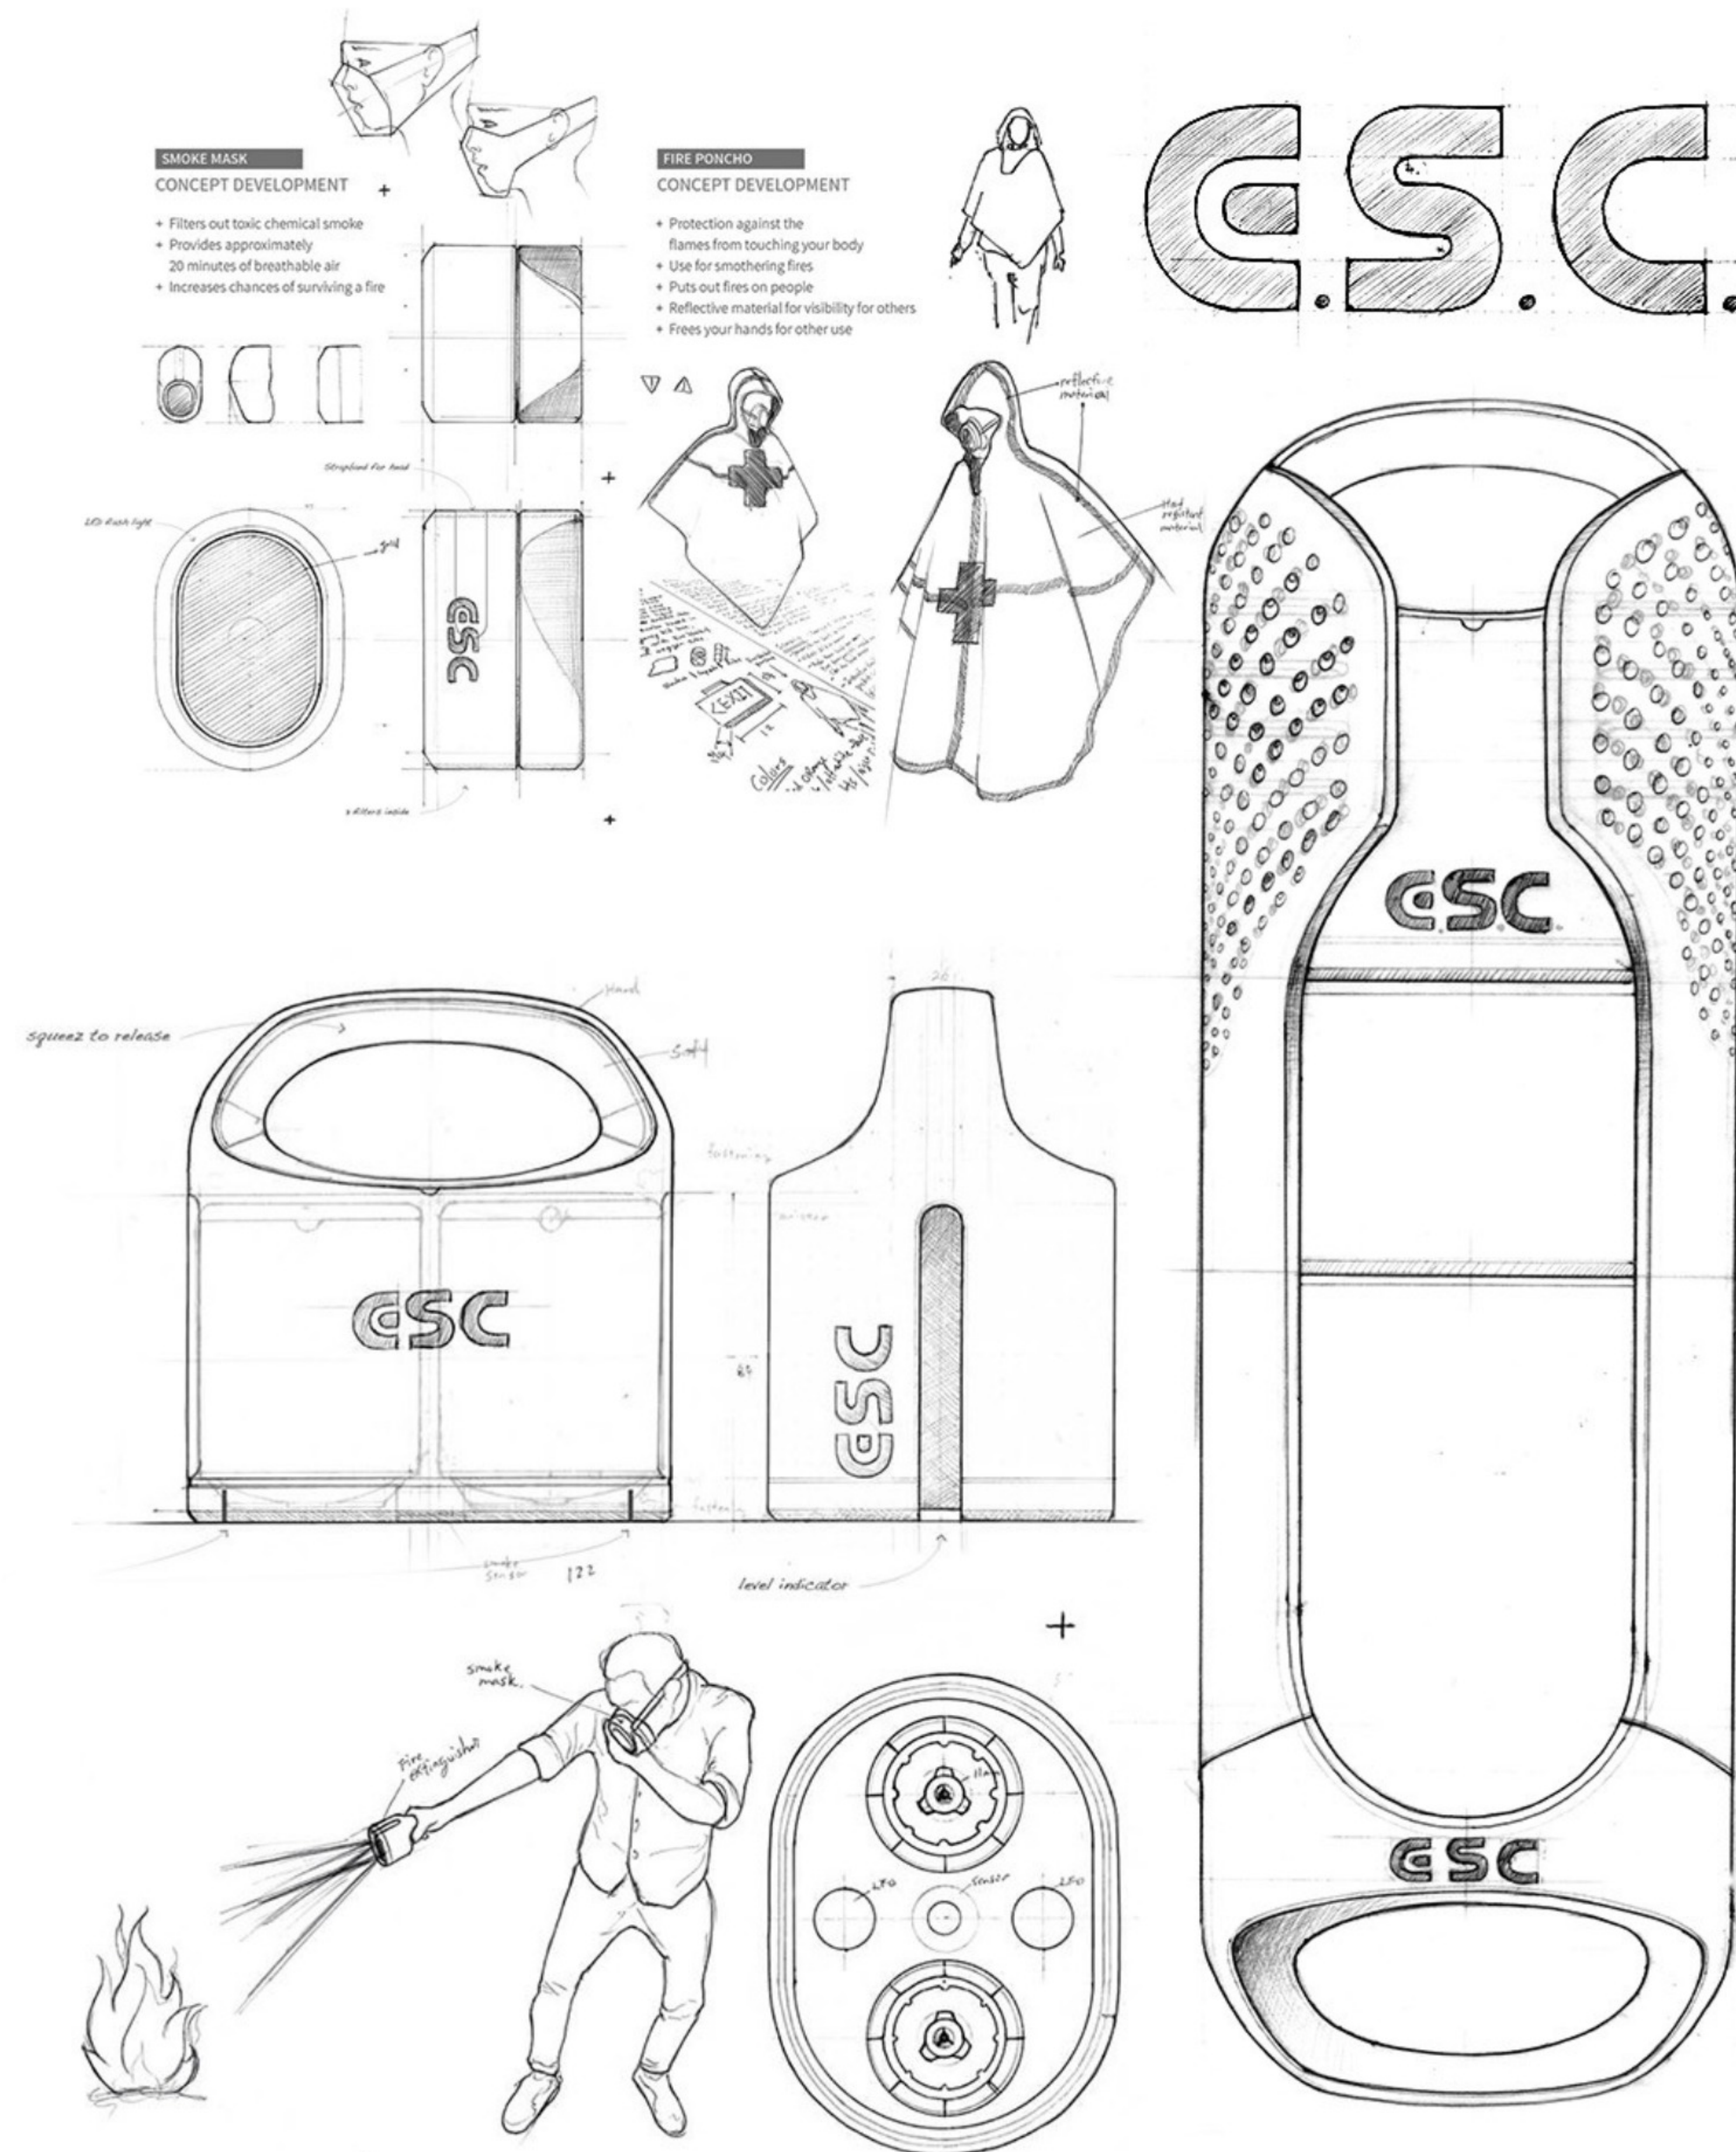

Sketch Study: Medicine Bottle Form and Proportion

- + Use construction lines to define structure
- + Apply perspective techniques for accuracy
- + Explore volume and scale through line weight

Escape Kit Concept: Visual Exploration for Home Fire Safety

- + Research common causes and patterns in home fires
- + Identify gaps in smoke detector use and response
- + Explore solution ideas through sketching

Backpack Concept: Form and Function Exploration

- + Explore design through form-function sketch studies
- + Develop orthographic views to communicate structure
